

 YACHT
SYNDICATION
AUSTRALIA

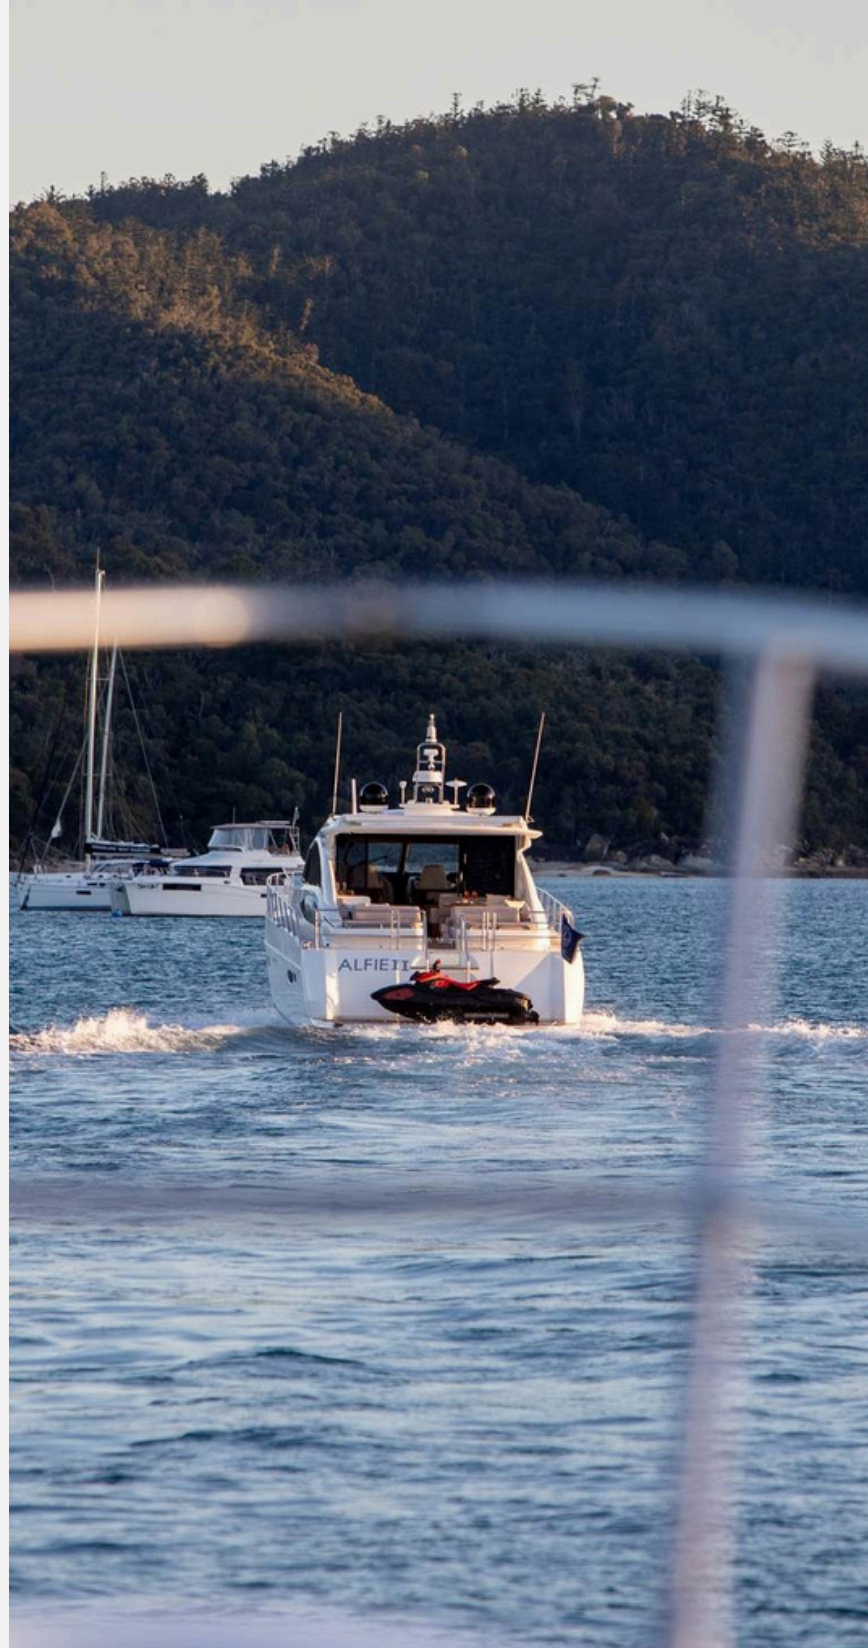

Shared Ownership, Redefined

Australia's harbours and islands offer some of the world's finest cruising. A yacht gives you the freedom to explore them at your own pace.

Through syndication, Yacht Syndication Australia makes this lifestyle within reach. You get to enjoy time on the water, a well-maintained vessel and the connection of an exclusive fleet –without the costs or complexities of managing it alone.

Our approach is built on experience and independence, ensuring your time aboard is always seamless, safe, and memorable.

How It Works

Syndication gives you the convenience of yacht ownership with the advantage of shared running costs.

Every YSA vessel is maintained in commercial survey, generating income that helps offset annual operating expenses. Shareholders then contribute a fixed monthly fee, keeping ownership straightforward.

When it's your time aboard, you can choose to skipper the vessel yourself or enjoy the support of a qualified captain. Our walk-on, walk-off service means every detail is prepared in advance, so your experience begins the moment you arrive at the marina.

The Simplicity of Shared Costs

Each share comes with a fixed monthly contribution of \$1,500, covering the essential running costs of your yacht:

- Berthing and marina fees
- Insurance and compliance
- Routine servicing and maintenance
- Professional management and vessel care

This structure keeps ownership fair and consistent, with every yacht maintained to the highest standard.

Additional costs are only for what you personally use during your time aboard, like fuel, catering, crew, or custom requests.
