

ARCHIE MANHATTAN 63

The Gold Coast

Your time on the water, effortlessly.

Shared Ownership, Redefined

Australia's harbours and islands offer some of the world's finest cruising. A yacht gives you the freedom to explore them at your own pace.

Through syndication, YSA makes this lifestyle attainable. Enjoy time on the water with a well-maintained vessel and the benefits of an exclusive fleet –without the costs or complexities of managing it alone.

Our approach is built on experience and independence, ensuring your time aboard is always seamless, safe, and memorable.

How it Works

Syndication delivers yacht ownership with shared running costs.

Every YSA vessel is in commercial survey, generating income to offset expenses. Owners contribute a fixed monthly fee for straightforward management.

When aboard, choose to skipper yourself or hire a captain — every detail is prepared with our walk-on, walk-off service.

Each share includes a \$1,500 monthly fee covering:

- Berthing & marina fees
- Insurance & compliance
- Servicing & maintenance
- Professional management

Additional costs apply only to your personal use while onboard (fuel, catering, crew, or custom requests).
