Suggested Uses

Review Activity: Select all cards for the pieces your child knows. Have your child draw a card and play the piece indicated. Play as many pieces as your teacher instructs. Be sure to include your child's three most recent pieces.

Master a Volume: Select all of the cards from a completed volume. You will be creating two stacks of cards (A and B). Play through each piece. If the piece is polished, place the card on stack A. If the piece needs more work, place the card on stack B. During daily practice, play all the pieces in stack A and play the first piece in stack B for five minutes. When this piece becomes polished, move it to stack A. Continue your daily review in this manner until all cards are moved to stack A. You then have mastered a volume and are ready to continue to review these pieces as your teacher instructs.
