

CESKAT®

Your best partner in technology

ABOUT DE CESKAT

CESKAT is a supplier of electrical industrial equipment and solutions with more than 30 years of experience developing industrial connectivity projects, process optimization, wireless instrumentation, control systems, energy efficiency projects with variable speed drives, SCADA solutions, HMI, PLC, RTU, electrical variables in power transmission lines, manufacturing and assembly of power and control panels, electrical and pneumatic cabinets and panels, UPS for critical industrial applications, antifreeze solutions, self-regulated heating cables, Heat Tracing, GRP boxes and enclosures for instrumentation, devices for classified areas, signal conditioners, pressurization and purge systems, remote I/O, among many other products related to electrical engineering.

AREAS

- Sales of equipment and solutions
- Control Automation
- Power Electronics
- Energy efficiency
- Industrial connectivity
- Process control

Ceskat Systems S.A. | Rut: 76.084.788-7 | Part of Soltex group of companies. | Address: Av. Víctor Uribe 2260, Quilicura. Santiago. Tel.: +56 2 2730 4701
Marco Polo 9038, Mod. 19 Flexcenter Hualpén, Concepción. Tel.: +56 (41) 248 2341 | E-mail: central@ceskat.cl | Tel.: +56 2 2730 4701

SIEMENS
RUGGEDCOM

Communication equipment for aggressive environments and critical infrastructure. Ethernet networks, Switches, Routers, Serial Servers, Wireless Communication (WI-FI, Cellular and WiMax), Networking Software, Cybersecurity.

Weidmüller

Marking systems, industrial connectivity tools, electronics and automation. Halogen-free terminal blocks, wiring gutters, PV connectors and accessories, etc.

ATECNUM™
PowerDonut™

Measurement of electrical parameters PowerDonut in medium and high voltage. Power Transmission Lines & Overhead. Dinamic Line Rating. Wireless communication (cell phone and RF) and weather station.

PEPPERL+FUCHS

Intrinsic safety barriers, boxes, signal conditioners, tablets and smartphones for classified areas, power sources, purge and pressurization systems, transient suppressors, rugged HMI industrial computers, etc.

Danfoss
VLT™ | VAGON™

AC drives, designed for severe operating conditions, energy efficiency and maximum performance.

opSens

Industrial fiber optic sensors for critical applications (vibration, oscillations, displacements, pressure and temperature by interferometry).

nvent **Raychem®**

Heat Tracing, heating cables, components, accessories and controls. Anti-freeze solutions and maintenance of fluid temperature.

SCHNIEWINDT
THE POWER OF ELECTRIFYING IDEAS

Electric heaters for gases and liquids in tanks and in-line.

INTERTEC®
Protected operating conditions

GRP boxes, enclosures, crates and rooms for the protection of equipment and instruments in extreme climates or environments. Explosion Proof Heaters for boxes and cabinets.

REGISTERED SUPPLIER

Ceskat is registered with all its categories of products and services in the main portals and supplier platforms of the national industry.
