

## **P.G.E.® — Methodological Framework**

Analysis of complex decision-making systems in institutional and judicial contexts

### **Introduction**

Presentation document for professional, judicial and institutional contexts.

### **Core principle**

The problem is not the event but the process that makes it possible.

### **Analytical framework**

Based on verifiable data, traceability and separation between facts and interpretation.

### **Technical application**

Document analysis, structuring complex data and consistency verification.

### **Outcomes**

Compatible – Not compatible – Not verifiable

### **Limitations**

The framework supports technical analysis and does not replace judicial or decision-making processes.

### **Access**

Access upon preliminary evaluation – reserved for professional and institutional contexts.

**Massimiliano Spataro**

Forensic criminologist and technical consultant
