

Core values of the

Greater Richmond Continuum of Care

34 agencies committed to ensuring everyone in our community has a safe place to live

We can serve more people, and serve them better, by **collaborating** and **coordinating** services.

Recognizing that there aren't enough resources, we agree to serve the **most vulnerable**.

We apply for targeted public funding to provide **critical services** and resources.

We **listen** to people in our community to improve our network's programs and services.

The Richmond region is a national leader in solving homelessness. Through partnerships with the coordinated and compassionate members of the Greater Richmond Continuum of Care, we have found permanent housing for more than 11,410 unique individuals in our region in the past 10 years.
