

Perimeter Protection for Solar Farms

Costs
as little
as €7
a day

Detect – Prevent – Protect

Prevention is always the best option.

Our clients include:

Construction Sites, Warehousing, Pharma, Embassies, Sports Facilities,
Government Buildings, Manufacturing and Commercial.

TEC use the latest technology to protect our clients

- Each system specifically designed for the client
- No upfront capital costs, straight forward monthly fees
- Quality equipment monitored by experienced security team
- Radar & Thermal guided camera technology
- High quality footage and comprehensive reports
- Client can also monitor activity from smartphone
- Installation, maintenance and upgrades all included

A typical monitoring solution could cost as little as €7 a day.

To find out more and avail of a confidential security assessment please contact the expert team at TEC Security – a member of Irish Solar Energy Association.
