

Who Are We?

We are a diverse New England-based community of women leaders who work together to advance women's careers, build our networks, make positive community and business impacts, support each other, and mentor multigenerational women leaders from all backgrounds. We are celebrating our 50th this year!

What's Our Vision?

Our vision is a world where women's potential knows no bounds!

We are committed to creating a world where gender bias no longer exists. We nurture equitable opportunity, influence, and leadership impact across all business and community sectors.

What's Our Mission?

We advance women leaders to have the greatest impact across their professional, personal, and community lives.

How Do We Do It?

Through expansive, high-impact leadership training, networking/relationship-building, events, and our signature research on the progress of women in leadership. Here's a sampling of our signature initiatives:

- **Research:** Annual Census of Women in Corporate Leadership
- **Governance:** Board preparation and placement – for-profit, nonprofit, civic
- **Professional Development:** Structured mentoring and leadership learning
- **Leadership Expertise:** Expert-led professional education and dialogue
- **Engagement:** 70+ programs annually across industries and career stages
- **Inclusion:** Multiple events and initiatives to create a welcoming and diverse club

Why Does This Work Matter?

Because data shows women in leadership roles make organizations and communities stronger.

Because data shows women who have attained senior leadership want to help future generations of women succeed.

Because data shows the progress women and their allies have made is fragile.

Partner With The Boston Club

Your partnership directly supports The Boston Club's strategic initiatives, programming, and member experience, and it ensures the ongoing impact of our 50-year legacy! *In return, we give back to you and your employees with a broad and customized array of benefits, including:*
