NASDAQ: QNTM

Investor Presentation

April 2025

Forward Looking Statements

This Presentation, together with any supplements and any other information that may be furnished to prospective investors by the Company, contains “forward looking information” and “forward looking statements” (forward looking information within the meaning of applicable securities laws). Forward looking information may relate to our future financial outlook and anticipated events or results and may include information regarding our financial position, business strategy, growth strategies, budgets, operations, financial results, taxes, dividend policy, capital structure, plans and objectives, and other statements that are not historical facts. In some cases, forward looking information can be identified by the use of forward looking terminology such as “plans,” “targets,” “does not expect,” “is expected,” “an opportunity exists,” “budget,” “scheduled,” “estimates,” “outlook,” “forecasts,” “projection,” “prospects,” “intends,” “anticipates,” “does not anticipate,” “believes,” “may,” and other similar words or variations of such words. Statements containing forward looking information are not historical facts but instead represent management’s expectations, estimates and projections regarding future events or circumstances.

The forward looking information included in this Presentation includes, among other things, statements relating to the design, timing and cost of the Company’s drug candidates and clinical trials; key milestones relating to clinical and regulatory developments; potential market demand for the Company’s drug candidates; near term capital requirements; the anticipated patent and trademark exclusivity periods for the Company’s drug candidates; and the potential role of the Company’s drug candidates in the treatment of Multiple Sclerosis and other inflammatory and degenerative neurological disorders and other orphan diseases. The forward looking information in this Presentation is based on our opinions, estimates and assumptions in light of our experience and perception of historical trends, current conditions and expected future developments, as well as other factors that we currently believe are appropriate and reasonable in the circumstances.

Despite a careful process to prepare and review the forward looking information, there can be no assurance that the underlying opinions, estimates and assumptions will prove to be correct. The forward looking information in this Presentation is based on a number of assumptions that include, but are not limited to, the following: the Company’s ability to generate sufficient cash flow from operations and obtain financing, if needed, on acceptable terms or at all; the general economic, financial market, regulatory and political conditions in which the Company operates; the interest of potential purchasers in the Company’s drug candidates; anticipated and unanticipated costs; the government regulation of the Company’s activities and drug candidates; the timely receipt of any required regulatory approvals and authorizations and the continuation of previously received regulatory approvals and authorizations; the Company’s ability to obtain qualified staff, equipment and services in a timely and cost efficient manner; the Company’s ability to conduct operations in a safe, efficient and effective manner; and the Company’s expansion plans and timeframe for completion of such plans.

Corporate Overview

Quantum BioPharma is an R&D focused biopharmaceutical company led by a world-class science team dedicated to building a portfolio of innovative assets and biotech solutions, with three near-term monetization events.

- Proprietary R&D conducted by a world-class team of medicinal chemists and pharmaceutical industry professionals

- Dr. Lakshmi P. Kotra, B.Pharm.(Hons), PhD – Director

- Dr. Andrzej Chruscinski, MD, PhD – Vice President, Clinical and Scientific Affairs

- Dr. Eric Hoskins – Director

- Ashwini Joshi, MS, PG Diploma (QA&RA) - Director-Pharmaceutical Development

unbuzzd™ + REKVR™

- unbuzzd™, a rapid alcohol detoxification beverage, the first-to-market with a scientifically formulated powder stick for this fast-growing consumer product category, *launched in 2024 and expected to grow 300% by 2030*
- REKVR™ a formulation under development for an alcohol misuse treatment for use in emergency and hospital settings, an unmet need and has potential for *exponential growth*
- Owned by licensee Celly Nu - led by *CPG market veterans* with a proven track record of launching and scaling consumer product distribution programs while increasing company valuation by as much as 35-fold

LUCID MS

- LUCID MS - *Potential multi-billion asset* in demyelinating diseases, with initial indication in multiple sclerosis (MS)
- Proprietary R&D conducted by a *world-class team* of medicinal chemists and pharmaceutical industry professionals

Portfolio Pipeline

Robust pipeline of products and assets focused on addressing significant unmet needs in brain disorders and alcohol health

	Formulation Development	Regulatory Compliance	Final Composition	Technology Transfer/ Commercialization	Clinical Trial	Market Launch
unbuzzd™ (Recreational alcohol misuse treatment)						Q3 2024
REKVRy™ (Hospital and emergency settings alcohol misuse treatment)						

	Discovery	Lead	In vivo PoC	IND* enabling studies	P1	P2	P3	Market Launch
LUCID-21-302 (Multiple Sclerosis)					Phase 1 SAD/MAD Completed	Phase 2 Q1 2026 Estimated		

unbuzzd™ + REKVRV™

Revolutionary technology for alcohol intoxication, life-changing opportunity

A refreshing, science-backed beverage that helps people feel more refreshed and balanced after drinking.

- Licensee Celly Nutrition Corporation, has an exclusive, perpetual license for the consumer market
- Quantum BioPharma retains ownership of 25.71% of Celly Nutrition
- Agreement with Celly Nutrition also includes royalty payments of 7% of sales from unbuzzd™ until payments to Quantum BioPharma total US\$250 million
- Once US\$250 million is reached, the royalty drops to 3% in perpetuity
- Quantum BioPharma retains 100% of the rights to develop similar products or alternative formulations specifically for pharmaceutical and medical uses
- Following highly positive results from unbuzzd Clinical Study, Celly Nutrition has engaged a leading New York investment bank to ***pursue an IPO on a major US public exchange***

Excessive Alcohol Use Continues to Wreak Havoc on Families and Communities, Creating a Heavy Strain on Society as a Whole

Binge drinking rates among adults aged 35–50 reached an **all-time high** in 2023¹

Rates of binge drinking among people ages 18 to 25 have been decreasing in the past decade, but **remain high** (28.7% in 2023)²

Excessive drinking cost the United States about **\$249 billion annually** when combining healthcare costs, lost productivity and earnings, criminal justice implications, vehicle crashes, and property damages³

Whether you drink or not, everybody pays the price

As Excessive Alcohol Use Persists, the Hangover Remedy Market Continues to Grow

- The global hangover cure products market size was valued at US\$2.05 billion in 2022 and is expected to grow at a compound annual growth rate (CAGR) of 14.8% from 2023 to 2030 when it is expected to reach a value of US\$6.2 billion.
- But until now, there is no effective product that **reverses** the effects of alcohol efficiently.

The Days of “Waiting It Out” are Over

unbuzzd™ is the only dietary supplement product that provides relief from inebriation and accelerates alcohol metabolism, leading to reduced Breath Alcohol Concentration (BrAC)

HOW IT WORKS:

unbuzzd™ BENEFITS

Rapid Restoration

Restores mental alertness and improves cognition post-alcohol consumption in an average of 15-30 minutes

Improved Liver and Brain Function

Proprietary formulation of extracts, vitamins, minerals help with liver and brain function

Reduced Blood Alcohol Content

Ingredients help reduce BAC faster than what the body would do naturally

Successful unbuzzd™ Clinical Trial Completed February 2025

A double-blind, randomized, placebo-controlled crossover design clinical trial (NCT06505239) of dietary supplement product unbuzzd™, investigating its effects on alcohol intoxication and alcohol metabolism.

Key Findings

**Accelerated Alcohol
Metabolism**

**Rapid Improvements
in Alertness**

**Rapid Improvements in
Physiologic Changes due to
Intoxication**

**Reduced Perceived Impairment
and Mental Fatigue**

**Hangover
Relief**

**No Side
Effects**

Quantum BioPharma Ltd. retains ownership of 25.71% (as of June 30, 2024) of Celly Nutrition www.unbuzzd.com. The agreement with Celly Nutrition also includes royalty payments of 7% of sales from unbuzzd™ until payments to Quantum BioPharma total \$250 million. Once \$250 million is reached, the royalty drops to 3% in perpetuity. Quantum BioPharma retains 100% of the rights to develop similar products or alternative formulations specifically for pharmaceutical and medical uses.

Multi-Channel Distribution Strategy

Building on valuable customer data and subscription opportunities to meet consumers where they are

Direct to Consumer: Launched August 2024 in the USA

Liquor, Foodservice, Travel: 2025 – 2026

Direct Store Delivery: 2025 – 2026

National Retail: 2025 – 2027

360 Degree Marketing Approach

In the Media

Kevin Harrington’s unbuzzd Revolution: How This Will Change Society

Alcohol Misuse Treatment Upcoming Milestones

unbuzzd™

- Launch with FUSION Distribution across Puerto Rico
- Launch with AATAC
- Expand e-commerce to TikTok Shop, IHerb, and other strategic platforms
- Launch Affiliate and Ambassador Programs
- Launch new 1-pack box packed in an 8-pack display box for retail display on the counter near the register
- Testing social media marketing messages across Facebook, Instagram, TikTok, LinkedIn, and YouTube

REKVRY™

- Dietary supplement trial studying the safety and efficacy of unbuzzd™ in Acute Alcohol Intoxication completed

Deep Commercial Expertise

Gerry David

Director, Co-Chair

- Former CEO of Celsius Holdings, a zero-calorie fitness drink maker, 35-fold increase in market cap, surpassing \$9B and enhancing shareholder value
- One of 25 Gold Winners in the esteemed CEO World Awards

Kevin Harrington

Board Advisor

- Original Shark on Shark Tank
- Launched over 1,000 products in over 100 countries, creating over \$6 billion in global sales
- Instrumental in Celsius' influencer marketing program

John Duffy

CEO Celly Nutrition

- With over 30 years in the Consumer-Packaged Goods (CPG) industry, including 22 years at Coca-Cola, held roles such as Vice President of Marketing Assets and Vice President of National Sales

Zeeshan Saeed

Founder, CEO, President & Executive Co-Chair

- Founder and current CEO, President and Executive Co-Chair of Quantum BioPharma
- President of ZZ Telecommunications, a long-distance communications carrier
- Extensive experience in international capital markets, having successfully assisted multiple start-ups in raising initial funding and securing listings on various stock exchanges

LUCID-21-203:

A New Chemical Entity (NCE) with the potential to reverse multiple sclerosis and other chronic neurological disorders

Multiple Sclerosis (MS): A Debilitating Disease with High Unmet Need

- MS is characterized by **demyelination**: one of a group of disorders characterized by the destruction of myelin, the protective sheath that surrounds nerve fibers in the central nervous system
- **Myelin is essential** for proper functioning of nerves, helping to speed up the transmission of electrical signals between the brain and other parts of the body
- Patients who have MS suffer from a range of devastating symptoms, including vision loss, pain, fatigue, impaired coordination
- Current therapies for MS help reduce relapses and prevent worsening disability in some patients, but **they are not as effective** at slowing down disease progression or reversing damage over time¹

Patients suffering from MS need better options, fast.

An Expansive Market

Prevalence of Multiple Sclerosis* 1 in 3,000 people around the globe

- Almost **1 million people** in the US alone have been diagnosed with MS and 2.8 million people worldwide¹
- Global MS market sales projected to grow to **US\$41 billion** by 2033 (vs US\$28.2 billion in 2022).

LUCID-21-302: A Potential First-In-Class Approach to Treating Demyelinating Diseases

- **New Chemical Entity** discovered by Dr. Kotra and team at University Health Network
 - Mouse models of MS showed **accelerated** functional recovery, **preserved** myelin, and **reduced** axonal degeneration
 - First therapy with the potential to **reduce** demyelination and **preserve** neuronal health
 - Over 14 years of preclinical R&D showed **promising efficacy**
- **No suppression** of immune system and **no immunomodulation**
 - Phase 1 Single-Ascending Dose (SAD) and Multiple-Ascending Dose (MAD studies evaluating the safety and tolerability of Lucid-21-302 in multiple respective cohorts have been completed, with **no serious drug-related effects**
 - **Potentially Expedited pathway** to market, with Phase 2 clinical trial on the horizon

	Discovery	Lead	In vivo PoC	IND* enabling studies	P1	P2	P3	Market Launch
LUCID-21-302 (Multiple Sclerosis)					Phase 1 SAD/MAD Completed	Phase 2 Q1 2026 Estimated		

KOL’s predict that neuroprotective therapies are going to be the top priority for new treatments in the future of MS¹

Award-Winning Experts Across R&D and Healthcare

Dr. Lakshmi P. Kotra, B.Pharm.(Hons), PhD, Director

- Professor of medicinal chemistry at Leslie Dan Faculty of Pharmacy, University of Toronto.
 - Senior Scientist at Krembil Research Institute, University Health Network, Toronto
 - Recipient of Julia Levy award, recognizing successful commercialization of Innovation in Canada
 - Led a number of important drug discovery and development projects, including anti- HIV drugs, antibacterials, insulin, antimalarials, medical cannabis-based therapeutics, and drugs targeting MS
-

Dr. Andrzej Chruscinski, MD, PhD

- Board-certified cardiologist, led two major clinical trials investigating tolerance in transplantation and new biomarkers discovery
-

Dr. Eric Hoskins, Director

- Former Ontario Minister of Health in charge of North America's largest health system
-

Ashwini Joshi, MS, PG DIPLOMA (QA & RA)

- Deep expertise in developing formulations of small molecules for global markets in mid-to-large generic and pharmaceutical industries
- Expert in product development at R&D to its successful scale-up, subsequent regulatory filings and clinical development

An R&D Focused Business Model

Tremendous revenue potential without the marketing cost burden

QUANTUM MAINTAINS:

7%

royalty on gross revenue of unbuzzd™

25%

equity stake in Celly Nu, a non-listed Canadian public company formed in 2023, focused exclusively on consumer applications of alcohol misuse treatment

100%

rights for all medical and pharmaceutical applications of this alcohol misuse treatment

100%

exclusive worldwide patent rights to a New Chemical Entity (NCE) for treatment of multiple sclerosis and other demyelinating diseases

2024 Financial Statements Aligned to Strategy

- **Strong improvements in cash, working capital, operating efficiency and the removal of material uncertainty related to going concern**
 - Operating expenses reduced to \$16.1M in FY'24 compared to \$23.8M in FY'23, an improvement of over 32%.
 - Net cash used in operations of \$6.9M compared to \$10.8M in FY 2023, an improvement of 36%.
 - External R&D fees increased to \$6.1M from \$3.9M in FY'23 due to advancing key clinical assets.
 - G&A expenses increased to \$9.4M in FY'24 compared to \$9.0M in FY'23 due to advancing key clinical assets.
 - Sufficient working capital to carry out operations for FY'25 & sufficient cash on hand to sustain basic operations beyond January 2027.
- **Completed unbuzzd™ clinical trial and multiple sclerosis drug lucid-21-302 phase 1 trial to advance pipeline of products and assets**
 - Began development of REKVRV - an alcohol misuse treatment for emergency and hospital settings.
