Maldives' Soulful Gem

Welcome to Emerald Faarufushi Resort and Spa!

Dear Guests,

It is with great pleasure that we welcome you to Emerald Faarufushi -the island of reef. We are honored that you have chosen to stay with us for your Maldives holidays.

The following pages are designed to give you as much information as possible about our services and offerings.

For your convenience, we offers several on-site amenities, dining options, and activities. Our water sports center and dive center are conveniently located within walking distance only and the paddle and tennis court are both located right on Marina's jetty.

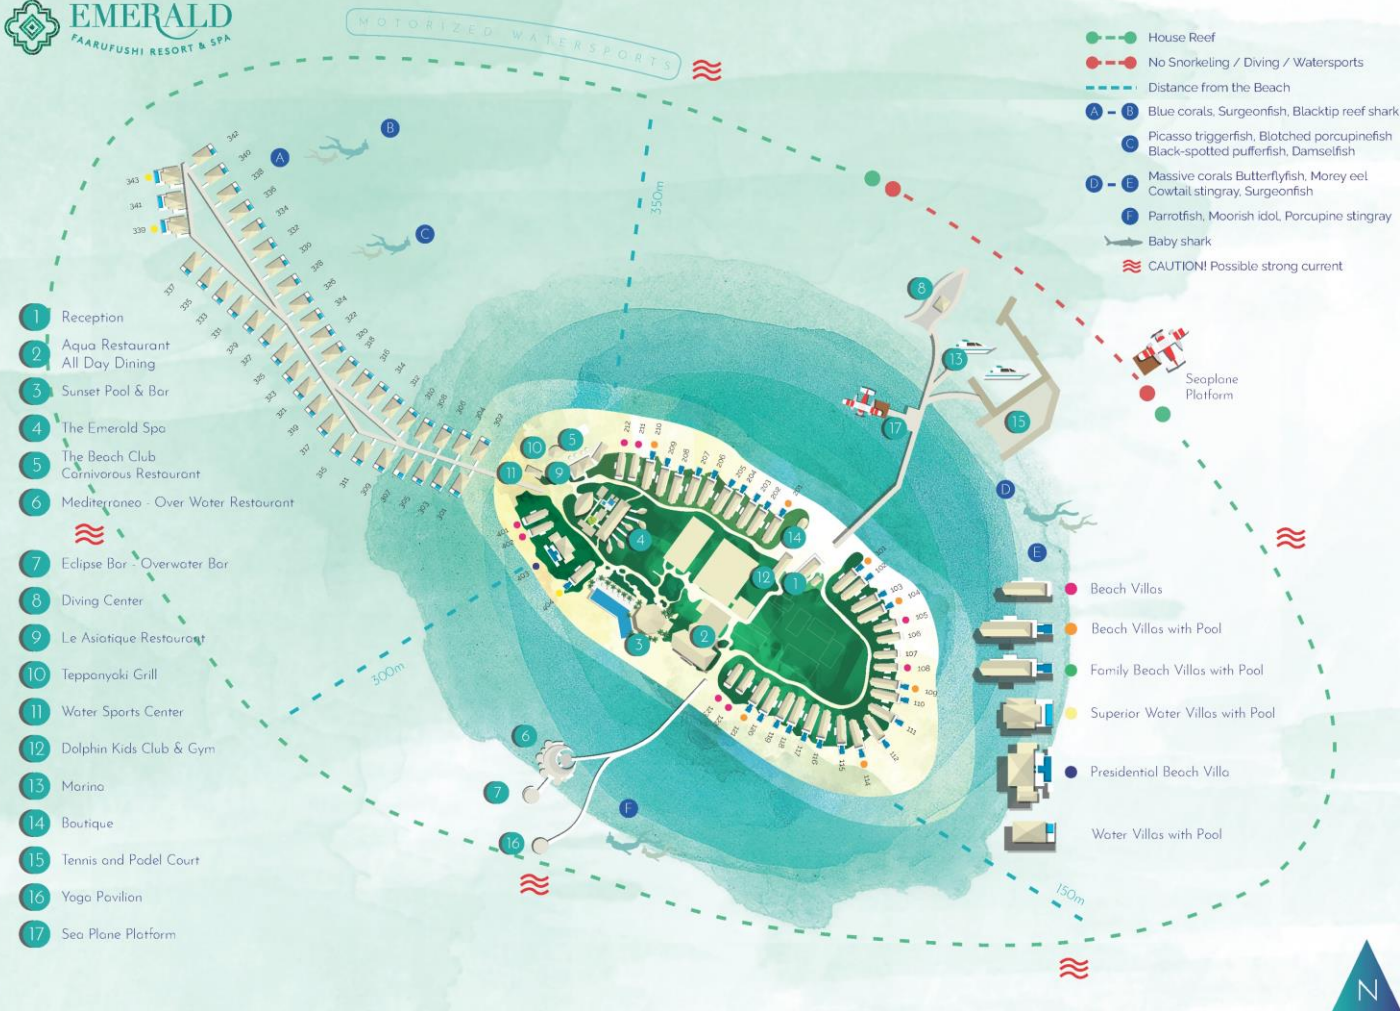

You may find more information on our Mobile App which is available to download for both iPhones and Androids.

Please do not hesitate to contact me or any other member of our team for any assistance.

We would love to hear your feedback about us for us to determine and work on the areas that we must improve in order to consistently provide only the best of everything for our precious gems (guests).

On behalf of Emerald Faarufushi team, wishing you a very pleasant stay here in our little slice of heaven.

Sincerely,
Patrick De Staercke
General Manager

This is Emerald Collection's second investment in the Maldives following their entry into the island destination previously through Emerald Maldives Resort & Spa.

Welcome to the Emerald Faarufushi Resort & Spa, a new 5-star Deluxe All-Inclusive Resort, proud member of The Leading Hotels of the World, where tropical landscapes and swaying palm trees are the gateway to refined fusion of nature and indulgence, creating an enchanting atmosphere of **"barefoot elegance."**

Swimming and Snorkeling Safety Tips!

- Please note that we do not have a life guard on duty and swimming and snorkeling is at your own risk.
- Never swim or snorkel alone - use the buddy system. Don't overestimate your swimming ability. A lot of people are used to swimming in the pool, in still water. Conditions are different in open water, and distance and direction are affected by currents. If you find yourself in a strong current, it is best not to tire yourself by trying to swim against it, rather swim diagonally across it, until you reach shore, further down the beach.
- Always wear full snorkeling equipment including fins.
- Always evaluate the conditions and do not go out when there is strong wind, choppy seas or bad weather. Please avoid swimming when it is dark.
- Never swim while intoxicated. Alcohol impairs judgement, unnecessary risks are taken and a swimmer will tire more easily, increasing the chance of an accident. Alcohol is a contributory factor in one third of all major incidents in the water.
- Even the Maldives have warm waters; the water is still relatively cool compared to your body temperature. This can lead to hypothermia. Heat dissipates a lot quicker from muscles, arms and legs. Once arms and legs start to lose heat then you have no power in them. This leads to not having the power to swim the distance to get back. That is why people get into trouble in the water. So limit your swimming time.
- If you experience problems while swimming and snorkeling please follow these procedures:
 - 1) Stay calm and don't panic
 - 2) Take off your mask and snorkel
 - 3) Turn on to your back and swim backwards
 - 4) Wave your hands to signal that you need help

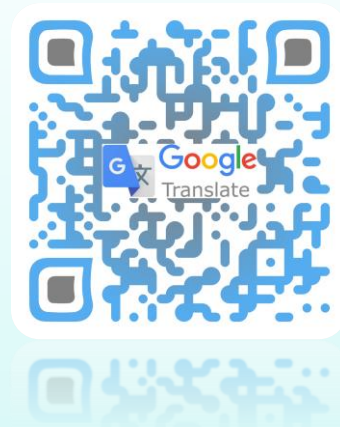

STAYING SAFE UNDERWATER & ON LAND

The key is simply don't touch. Sea creatures tend to stay away from humans, the titan triggerfish is the only fish that will actually come for you if you get too close during its mating season. It will tilt sideways and fly at you fearlessly. Usually these are bluff charges and you should swim away promptly and horizontally. Please do not take anything from the sea or beach, bring back home only memories.

Drink enough water...Minimum 2 litres a day, the more the better. Drinks, such as soft drinks, coffee, or alcohol-containing beverages, are no substitute for water. Although they contain water, they also contain ingredients which are dehydrating. GO ONE FOR ONE. When you consume alcohol, drinking almost the same amount of water is recommended in between drinks.
