BE IN THE KNOW

Keeping natural attractions pristine serves a bigger purpose – protecting the planet. Hence, we have employed science-based approach to track changes, implement efficient operations and deploy awareness programmes to provide an adaptive frameworks.

In 2004, Banyan Tree Maldives, Our Marine Lab officially opened its doors, serving the twin-island: Banyan Tree Vabbinfaru and Dhawa Ihuru (formerly known as Angsana Ihuru). It became the very first resort-based facility in the Maldives, designed for fieldwork conducted by visiting scientists, as well as to promote marine conservation and sustainable livelihoods in local communities.

SENSE OF PLACE-ISLAND SENSATION

Exclusively designed to complement your beach vacation, feel your senses awakened by a deep- tissue massage where strong, firm strokes relieve muscle tension. A body conditioner infused with vitamins hydrates sun-kissed skin. Lastly, a soothing lotion adds sun protection to set you in perfect shape for the tropical getaway.

Enjoy the nourishing balm of locally grown coconuts used in therapies to soothe your body. The combination of beautiful facilities, wonderful therapists and uniquely compounded treatments promises to soothe you into sated repose.
