

Entry Level Structural Engineering

Trotter and Associates, Inc. has developed an expert group of professionals and is seeking qualified individuals to join our team.

TAI's structural engineering department is seeking a new grad interested in a career in structural engineering. This position will report to the Chief Structural Engineer. This staff engineer position will be assigned to assist with design of new structures and modification/rehabilitation of existing infrastructure. This individual will be responsible for performing structural calculations, structural modeling and design, and performing field inspections. TAI's projects include concrete tankage and structures, structural framing, retaining walls, and industrial buildings.

Each team member is expected to have strong communication and presentation skills as this is a very client facing position. TAI team members are leaders in the industry and are encouraged to be involved in local, regional and national associations to continue their professional development.

Team Members Qualities:

- Professional/Hard Working
- Organized/Accountable
- Good Listeners/Effective Communicator
- Strong Problem Solving Skill
- Sound Adviser
- Engaging Presenter
