

Entry Level Environmental Engineering

Trotter and Associates, Inc. has developed an expert group of professionals and is seeking qualified individuals to join our team.

TAI's wet team is seeking a new grad interested in a career in the water environment profession. This position will work directly with Project Engineers and Managers for the development of water and wastewater infrastructure throughout northern Illinois and southern Wisconsin. Engineers will be exposed to planning, design and construction aspects of projects including water distribution, supply and storage, wastewater treatment and collection.

Each team member is expected to have strong communication and presentation skills as this is a very client facing position. TAI team members are leaders in the industry and are encouraged to be involved in local, regional and national associations to continue their professional development.

Team Members Qualities:

- Professional/Hard Working
- Organized/Accountable
- Good Listeners/Effective Communicators
- Strong Problem Solving Skills
- Sound Advisers
- Engaging Presenters
