

How to handle new requirements for sport physical (the ECG Screening Form):

This form has 2 sections:

Section A, parents can complete themselves and attached normal ECG results or decline EKG. I don't think we need to be involved if the parent chose to go to the Section A option.

Section B, gets completed by the provider.

The following options are available to obtain the Athletic Screening EKG:

- Contact ICPEDES to have EKG order (are nurses allowed to order the EKG?)

- The Lee County School District and Who We Play host heart screening events for future athletes. \$20 donations are appreciated.
- For upcoming events, visit <https://www.whoweplayfor.org/heart-screening-registration> or call 847-722-4659

- Lee Health Youth Athlete EKG screening service
 - Golisano Outpatient Center at HealthPark Commons
239-343-9400
16281 Bass Road, Suite 100
Fort Myers, FL 33908
 - Golisano Outpatient Center at the Sanctuary
239-343-7200
8960 Colonial Center Drive
Fort Myers, FL 33905

If **making appointment for Well Child** and is of age that they would need a High School Pre-participation Physical Evaluation form filled:

- a. Inform them of resources above (send pdf instruction thru txt link to our site). Get their EKG done before visit and bring the results
- b. Nurse can send routine order for ECG to Golisano, have it done before visit and make sure results are in before the visit.

If already at the visit:

- a. Inform them of the resources above and if normal, just attached to the form and parent to complete Section A (parent/guardian attestation)
- b. Order an EKG and once normal EKG noted then parent to return for the completed sports form

I think we can complete the sports form as usual, give them the option to get the school or other community resources to do the EKG and they can complete the Section A (make sure we cross off the Section B to imply that we did not order or signed off the ecg). They would be responsible for getting their own results.

If they want us to write a Rx for an ECG then tell them to return w/ that ECG Form and ECG results so we can sign off.

I will create a webpage that we can txt to parents to land on that will show the new requirements and options /resources for them to take (next week)
