

**CAPABILITY
STATEMENT**

WHO WE ARE

Crane hire company locally owned & operated in Moranbah since 2006, by leading director Mark Read.

SureLift Crane Hire is an expanding crane hire company servicing Moranbah & surrounding areas.

Our fleet of cranes range in various capacities from 20T to 300T, this includes five non-slew cranes, six slew cranes & one recently acquired crawler crane. An additional service our company offers is transport for site equipment and machinery.

SureLift Crane Hire supplies on an ad hoc basis to current and new customers. However, we are available for long term projects upon request and rates can be negotiated to suit the length and scope of work for the project.

WHAT IS SUPERIOR ABOUT OUR SERVICES

At Surelift Crane Hire, safety and customer satisfaction is key. Our team of qualified and experienced riggers, operators and supervisors provide an exceptional standard of service, in turn building sustainable company relationships.

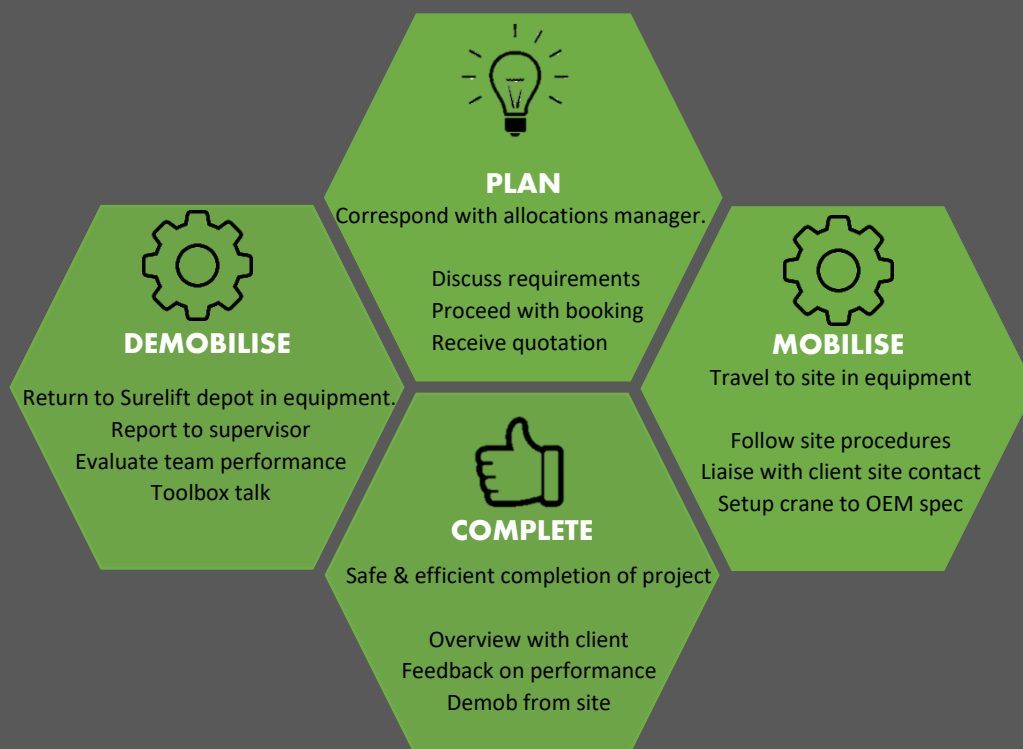

Working on different scopes of work, our team tailor's customer requirements to ensure safety, efficiency and quality. Regardless of the job, our multi-skilled crew thrive on customer satisfaction & challenges thrown their way.

We are best known for our company appearance, as maintenance and presentation of equipment is one of our key priorities.

Above all, we are committed to the wellbeing and safety of our team and those we interact with, this commitment is supported by our "Safety First" attitude and culture.

Our company culture has been built over the years, our team is our foundation & company ethics and morals have been set in their ways. Senior personnel within our company that have witnessed the company grow over the years, guide the team to be at our best potential.

With the best team in the basin, our vision is to be the industry leader and specialist in lifting and craneage.

OUR FLEET

CRANES

- AT20 Franna Crane
- MAC25 Franna Crane
- MAC25 SL Franna Crane
- AT40 Franna Cranes
- AC60 Terex Demag Mobile Cranes
- AC100 Terex Demag Mobile Crane
- AC140 Terex Demag Mobile Crane
- AC220 Terex Demag Mobile Crane
- AC300 Terex Demag Mobile Crane
- LR1280 Liebherr Crawler Crane

Our diverse range of mobile cranes and transport allows the team at SureLift Crane Hire to tailor a lifting solution for your project requirements.

All mobile cranes have custom built counterweight trailers and rig trucks. Our Tuff Trailers have been specially designed and built to eliminate working at heights and increase the safety of our crew.

TRUCKS & TRAILERS

- 4 Volvo Prime Mover's
- Twin steer tilt slide
- Step deck extendable
- Step deck widener
- Quad super tilt
- Box loader
- B doubles
- Road trains

All cranes, trailers, trucks and lifting equipment is serviced, maintained, and inspected when required, to ensure it is in the best working order for our clients and allows our team to perform efficiently.

LIGHT VEHICLES

- 7 Dual cab Toyota Hilux's
- Toyota Hiace Bus

Our cranes & light vehicles are mine spec and compliant for sites including BMA, Anglo American & Fitzroy. If an opportunity presents to service a new mine, we are willing to follow and adhere to compliance requirements and obtain the required inspections.

Regarding transport and large loads, we have the ability to obtain

INDUSTRY EXPERIENCE

MINING

SureLift Crane Hire is engaged for supply at surrounding mine sites daily on small and larger projects. Our key projects that we have taken part in and are continually engaged to complete again include, but are not limited to:

- Excavator assemblies
- Dump truck assemblies
- Wash plant outages/maintenance
- Loading and unloading of underground longwall equipment
- Digital radio tower assemblies
- Unloading of dragline & excavator buckets
- Dragline and face shovel shutdowns and maintenance

CONSTRUCTION

When not on a mine site, we receive construction enquiries and perform lifting as such:

- Placing de-mountable buildings
- Assembly of camp accommodation complex's
- Erecting grain silos
- Placing road culverts

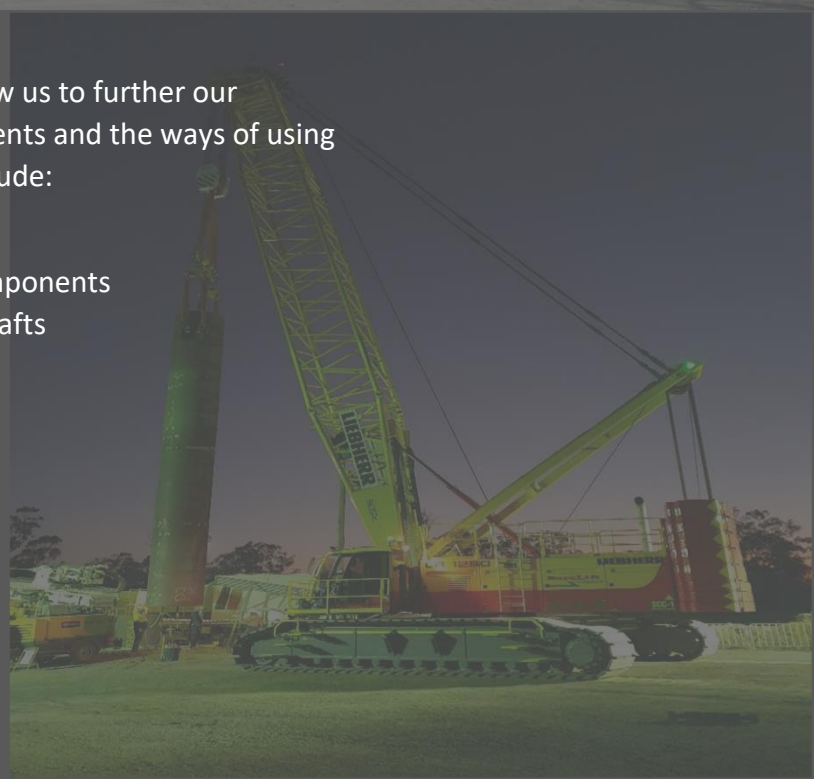

GAS

A select few clients in the gas industry allow us to further our experience around gas extraction components and the ways of using gas to convert into energy. Operations include:

- Maintenance on power stations
- Maintenance on gas extraction components
- Installation of underground vent shafts

TRANSPORT

- Mine compliant machinery
- Buildings & containers
- Vehicles & equipment
- Construction materials

OUR TEAM & CAPABILITIES

ALLOCATIONS

Our allocations team is our clients first point of contact for discussing their project requirements. Our allocations manager assists in the planning phase and works around the client's availability to complete the job prior to key deadlines. Our team of expert crane operators & riggers recommend the most suitable lifting configurations and tailor to the projects requirements to ensure it is completed safely and efficiently.

If required, engineered lift studies are obtained from a third party to ensure each lift is managed appropriately and falls within safe lifting capacity parameters.

At SureLift Crane Hire we apply ourselves to the best of our ability to ensure your project is priority and is executed in an efficient and safe manner. From request to final delivery, we endeavor to avoid delays and achieve your deadlines.

DEDICATED CRANE CREW

Our team understands the importance of executing our clients project safely, on time and to budget. Our dedicated crane crew have years of experience in different fields of work and use their knowledge during execution of a project. No matter your crane requirements, whether it be to assemble machinery, unload buildings, build dome structures or place road culverts, SureLift has the expertise, experience and equipment to supply safe and effective lifting solutions.

The team at SureLift will undertake a diverse range of lifting scope's, whether in mining, construction or gas as we have the required equipment and competently trained personnel to man your job.

SOCIAL RESPONSIBILITY

SureLift is a community minded company, we actively focus on our corporate social responsibility by involving ourselves in local community events and sporting teams.

Each year we sponsor multiple junior sporting clubs through both donations and transport or crane hire services. In the past, our transport and crane hire services has been donated to such events such as the Moranbah Rodeo, Moranbah Race Club, Moranbah Kart Club, Moranbah Miners Leagues Club, Moranbah Bulldogs AFL, Moranbah Golf Club, Moranbah Barrel Racing, Moranbah Bowls and Moranbah Gymnastics.

Surelift Crane Hire takes pride in supporting community and fundraising events such as the Horner's 4U2 Concert, Carols by Candlelight, and NAIDOC celebrations. We also support our local schools by donating services that may be required.

In 2019, managing director Mark Read along with the SureLift crew, made a pledge to support important organisations each year, including the National Breast Cancer Foundation of Australia & Prostate Cancer Foundation of Australia.

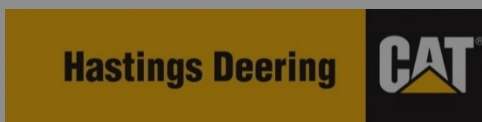

Each year, the crew donates funds which are matched dollar-for-dollar by Surelift and presented to these organisations and charities. Some of the charities that the Surelift Crew have donated to are Bowel Cancer Australia, Beyond Blue, R U Okay? Day and Do it for Dolly.

In doing so, Surelift purchase shirts annually to promote awareness knowing the team wear them with pride, in supporting these causes.

Surelift also donates annually to the charitable organisations, Variety, the Children's Charity, to help sick and disadvantaged Aussie Kids, and Childhood Cancer Support through the CAR4744 Variety Bash, the Jet Trek and the Postie Safari Ride.

WISELY

CLIENT TESTIMONIALS

Having dealt with SureLift at four of our sites across the Bowen Basin in recent years, they have proven themselves to be a professional outfit who take pride in customer safety standards and on time delivery to meet customer expectations. SureLift will go out of their way to support and assist but they also treat every customer (regardless of job size) as importantly as the big guys. After trying various other lift companies throughout the region, SureLift has proven themselves to be the safest and most reliable, which is why we will continue to use them in the foreseeable future.

Darren Semmler

Operations Supervisor – EDL Energy

From the three 6040 digger builds in 2020, the SureLift team have been top shelf. Our first machine at Goonyella was delayed, the SureLift team assisted in storing components in their depot, nothing is ever a problem & are more than happy to help. The equipment is always in great condition, compliant & the workforce are all aligned with our mining customers safety requirements. On our last build, the team were professional during a field leadership execution by the BMA engineering superintendent & fitted in as a part of the team. Hoping to see the team on the next build.

Reid Graham

Mechanical Maintenance Engineer – Hastings Deering

Arrow Energy are a gas production company that operates gas production/compression facilities in the Moranbah area. Maintenance and repair of these facilities requires that there be many and varied lifting activities. Over the last 5 years, we have engaged SureLift Crane Hire to undertake our lifting program. Along with planned lifts for major services, we often get breakdowns where we require a crane to be onsite at short notice. SureLift Crane Hire have met our requirements in these instances. Because most of our lifts are undertaken in hazardous areas, we demand a high level of competence and safety. SureLift not only supply personnel who are competent and safety focused, they also give us good advice on the best and safest way to undertake some of the more difficult lifting activities. The machines and equipment that SureLift Crane Hire supply are always in good clean condition with current certificates of operation. SureLift Crane Hire will continue to be engaged to undertake lifting on our sites in the future.

Mark McQuire

Compression Supervisor – Arrow Energy

We could not be more satisfied with SureLift as our crane and transport partner. From services to sales and office personnel, they keep our projects moving in an efficient, safe and professional manner.

They have proven valuable to MJM Developments by working alongside us on many high value construction projects over various mine sites in the Mackay/Bowen Basin district.

Continuous communication and full commitment to the job from everyone involved is the main reason we work together so successfully.

Matt Murphy

Director – MJM Developments
