

CONFERENCE
«Recent Achievements and Future Trends of Implantable Technologies in Rehabilitation of
Patients with Hearing Loss and Deafness»
25 years Anniversary of Cochlear Implantation in Russia
Moscow, October 27-28

PROGRAM

October 27

- 9:00-9:50 Opening Ceremony**
- 9:50-10:10 George Tavartkiladze (Russia)**
Cochlear implantation: past, present and future
- 10:10-10:30 Roland Laszig (Germany)**
Cochlear implantation in patients with single sided deafness
- 10:30-10:50 Milan Profant (Slovakia)**
Outcomes of cochlear implantation in children in relation with etiology of deafness
- 10:50-11:10 Shelly Chadha (WHO, Switzerland)**
Making hearing care accessible for all
- 11:10-11:40 Coffee-break**
- 11:40-12:00 Monika Lehnhardt-Gorany (Germany)**
Cochlear Implant - where do we come from, where are we heading for?!
- 12:00-12:20 Andrzej Zarowski (Belgium)**
Neuroimaging in CI candidates
- 12:20-12:40 Manuel Manrique (Spain)**
Atraumatic surgery on the labyrinth in the rehabilitation of hearing and balance
- 12:40-13:00 Akira Ishiyama (USA)**
The temporal bone histopathology following cochlear implantation
- 13:00-14:00 Lunch**
- 14:00-15:00 Cochlear Symposium**
- 15:00-15:20 Sandro Burdo (Italy)**
Pre-surgery rehabilitation for congenital deaf children
- 15:20-15:40 Antonio Caruso (Italy)**
Decision making process for auditory brainstem vs cochlear Implants

15:40-16:00 Joachim Müller-Deile (Germany)
Comparison of cochlear implant fitting procedures

October 28

10:00-10:20 Lorenzo Lauda (Italy)
Simultaneous cochlear implant and labyrinthectomy in Meniere disease

10:20-10:40 Gianluca Piras (Italy)
The role of cochlear implant in acoustic tumor in the only hearing ear

10:40-11:00 Yurii Sushko, Oleg Borisenko, Ilona Srebnyak (Ukrain)
Cochlear implantation: 25 years in Ukrain. Personal experience

11:00-11:20 Vladimir Fedoseev (Russia)
Evolution of the surgical stage of cochlear implantation in the National Research Centre for audiology and hearing rehabilitation

11:20-11:40 Neila Mileschina (Russia)
Cochlear implantation in patients with inner ear malformations

11:40-12:00 Vigen Bakhshinyan (Russia)
Neural response telemetry at surgical and rehabilitation stages of cochlear implantation

12:00-12:30 Coffee-break

12:30-12:50 Nikolai Malofeev (Russia)
Rehabilitation of children after cochlear implantation: 20 years of investigations

12:50-13:10 Sandro Burdo (Italy)
ANSD: a too large spectrum disorder?

13:10-13:30 Skarzynski Piotr (Poland)
Partial Deafness Treatment - middle ear and cochlear implants - different aspects

13:30-13:50 Hasan Diab (Russia)
Peculiarities of cochlear implantation in cochleo-vestibular pathology

14:00-15:00 Lunch

15:00-15:20 Hasan Diab (Russia)
Complications of cochlear implantation requiring reimplantation

15:20-15:40 Tatiana Markova (Russia)
Cochlear implantation in hearing loss of congenital etiology

15:40-16:00 Albina Sataeva (Russia)

Speech therapy approaches in rehabilitation of children after cochlear implantation

16:00-16:20 Sergei Osipenkov (Russia)

Implantable technologies in rehabilitation of patients with external and middle ear malformations

16:20 Closing Ceremony
