### ROUTE & DISTANCE

- Build primary route in **RV LIFE Trip Wizard**
- Confirm mileage fits **energy**, not just distance
- Check RV-safe routing and known restrictions
- Identify *stopping zones*, not just exact stops
- Cross-check scenic alternatives in **Roadtrippers**
- Use **Adventure Genie** if spacing feels awkward

### NAVIGATION & GPS

- RV-specific navigation set
- Truck GPS available as backup
- Google Maps ready (familiar roads + traffic only)
- Offline maps downloaded where needed

### FUEL

- Fuel spacing reviewed
- Remote stretches flagged early
- Rewards programs checked
- RV-friendly stations noted

### OVERNIGHT STRATEGY (PLAN A / B / C)

- Reservations confirmed if needed
- Flexible one-night options identified
- Backup options noted
- Parking-lot overnight = last resort

### DISPERSED / PUBLIC LAND (IF APPLICABLE)

- BLM maps reviewed
- Satellite-check access and turnarounds
- Reviews checked for context
- Willing to move on if it doesn't feel right

### WEATHER & WIND

- Forecast checked
- Wind advisories reviewed
- Exposed roads and bridges noted
- GO / SLOW / STOP** decided in advance

### FINAL NOTES

- Dump / propane options noted
- Arrival window realistic (daylight preferred)
- Margin built in for weather or fatigue

Reminder: **calm > perfect**

*Good planning isn't about control — it's about giving yourself options.*
