# About Us

Victoria General Trading a UAE-based entity, is the Parent Company for a variety of agencies and operations across the Middle East.

As we are **Victoria General Trading**, the channel partner UAE & Middle East for a lot of different products in multiple **Medical Fields**.

## Our Category List:

- 1 Sterilization Products
- 2 Fitleg Anti-embolism Stocking
- 3 Durico - Ultrasound papers
- 4 Dental Products
- 5 Gyna Products

## Vision

Victoria General Trading Vision is to be one of the best providers of standard international products and systems in the Middle East

## Mission

Victoria General Trading mission is to be recognized as a Contractor of choice in the Electromechanical Trading Sector in the region and to keep healthy and long-term relationships with our clients.

## Values

Victoria General Trading is committed to being independent, sustaining profitable growth, and focused on Customers, Co-workers, and Community with the following core values:

- Committed to serving Customers
- Act with honesty, integrity, and a sense of urgency
- Deliver Excellence in all work
- Encourage entrepreneurial spirit

# Sterilization Products

**1** Sterilization Pouches

**2** Sterilization Reels

**3** Sterilization Reel Tyvek

**4** Sterilization Indicator Tape

**5** Wrapping Sheets

**6** Medical Consumables

Brand Name: KMN – Kang Ming Na  
Brand Origin: China

# 1 Sterilization Pouches

## Features:

KMN self-sealing sterilization pouches are constructed from medical grade paper and transparent PET\PP multi-layer copolymer film and adhesive strip.

## Advantages:

- Medical grade papers with technic 60 or 70 gsm are effective against germs & bacteria.
- Permits the transmission of air, steam & sterilization gas.
- Reinforced film to avoid tears during the opening.
- Peel easy film permits film separate from paper with no shatters.
- Clean & accurate indicator color change.
- Triple band seal for higher package integrity which effectively avoiding crack.

## Applications:

- Small general practices
- Dental surgeries
- Users who don't want to pay additional costs of sealing devices.

# Sterilization Pouches Cont..

## Sterilization color change :

- **Under steam sterilization:**  →   
Turn from Blue to Black.
- **Under EO sterilization:**  →   
Turn from pink to yellow.

## Specification sheet:

- Sterilization Pouch 135mm\*(230+50)mm
- Sterilization Pouch 190mm\*(330+30)mm
- Sterilization Pouch 230mm\*(365+30)mm
- Sterilization Pouch 305mm\*(400+30)mm
- Sterilization Pouch 70mm\*(230+30)mm
- Sterilization Pouch 90mm\*(230+30)mm

**Note: Pack 200 PCS\BOX**

## Standards:

KMNpack Self-sealing sterilization pouches comply to FDA, EN868, ISO11607, and ISO11140-1 standards

2

# Sterilization Reels

## Features:

KMN self-sealing sterilization reels are constructed from medical grade paper and transparent PET\PP multi-layer copolymer film.

## Advantages:

- Medical grade papers with technic 60 or 70 gsm are effective against germs & bacteria.
- Permits the transmission of air, steam & sterilization gas.
- Reinforced film to avoid tears during the opening.
- Peel easy film permits film separate from paper with no shatters.
- Clean & accurate indicator color change.
- Triple band seal for higher package integrity which effectively avoiding crack.

## Sterilization color change :

- Under **steam** sterilization:  Turn from Blue to Black.
- Under **EO** sterilization:  Turn from pink to yellow.

## 3 Sterilization Reel Tyvek

### Features:

Tyvek is a non-woven polyethylene fabric manufactured by DuPont. It is known for its outstanding strength, durability & tear resistance. Tyvek hardly absorbs any toxic gases and thus result in far below the legal limit value of residual toxic gas level.

### Advantages:

- Excellent microbial barrier properties against germs, bacteria & moisture.
- Extremely high resistance to penetration and fiber-free peeling.
- easy peel & aseptic presentation.
- Easy seal with old sealing machines
- Clean & accurate color change.

### Standards:

KMNpack Self-sealing sterilization pouches comply to FDA, EN868, ISO11607, and ISO11140-1 standards

# Sterilization Reel Tyvek Cont..

## **6** **FITLEGS® Everyday range**

**Our FITLEGS® Everyday range of microfibre compression socks boost circulation in your feet and legs to make sure you feel comfortable, supported, and confident all day long.**

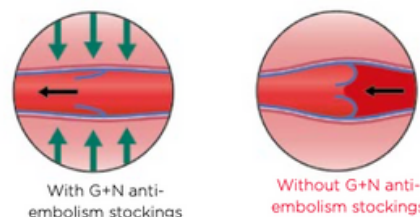

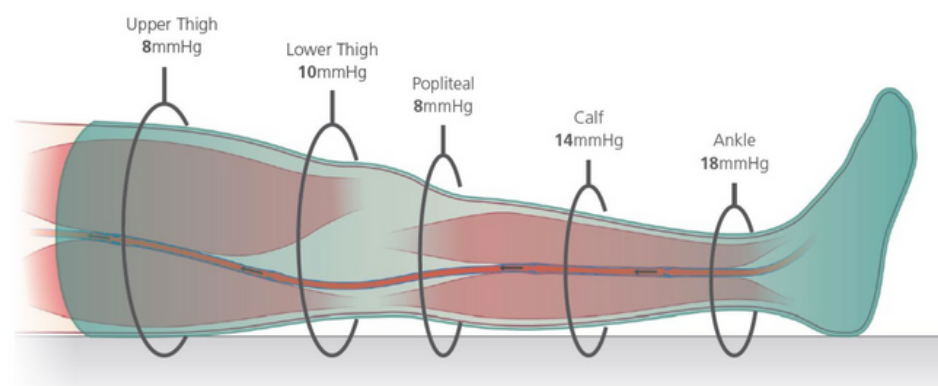

# Fitleg : Anti-embolism Stocking

## Features:

- ✚ DUOFIT technology provides a two way stretch for easier application
- 📄 Sizes – XS (slimline), S, M, L, XL, & XXL (bariatric)
- 🔍 Color-coded- stocking, measuring code & packing.
- 📄 Teal color – Better compliance
- 🕒 Inspection hole – to check capillary refill & feel foot pulses
- 👤 Available in below-knee & above knee (Thigh-length)
- ⬇️ Single ankle measurement reduces nursing time.
- 👣 Available in gri p& non grip.

## FITLEGS® Compression Levels:

- Sigel Profile – Study conducted to test the best levels of compression reducing venous stasis.
- The compression within the garment is highest at the ankle and reduces further up the leg.
- Pressure forces blood back towards the heart.

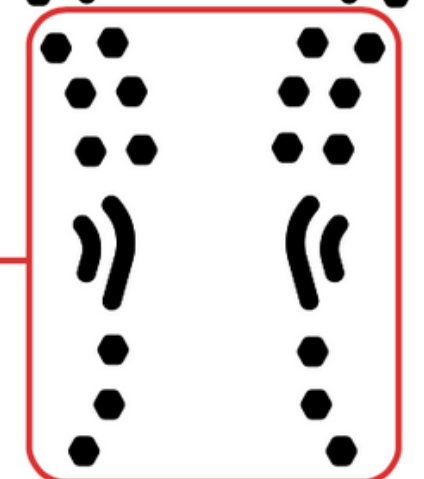

## FITLEGS® AES GRIP Design:

Ergonomic placement of grip that they will be positioned on the pressure points of the stocking adding initial puch when walking.

Grip has been removed from central part of the design due to it being less likely to be in contact with the ground.

The grip design is created so that it stops on the base of the foot so that it doesn't sit over the heel potentially causing pressure sores.

# Fitleg : Anti-embolism Stocking

## Applications:

- Member of the health care services working a long shift.
- An expectant mother with aches and pains both pre and post-pregnancy.
- A frequent traveler that wants to reduce swelling and increase circulation during long journeys.
- Through your working days.
- After a hospital stays whilst still have substantially reduced mobility.
- Athletes: Ex: training to run a marathon, hiking in the countryside.

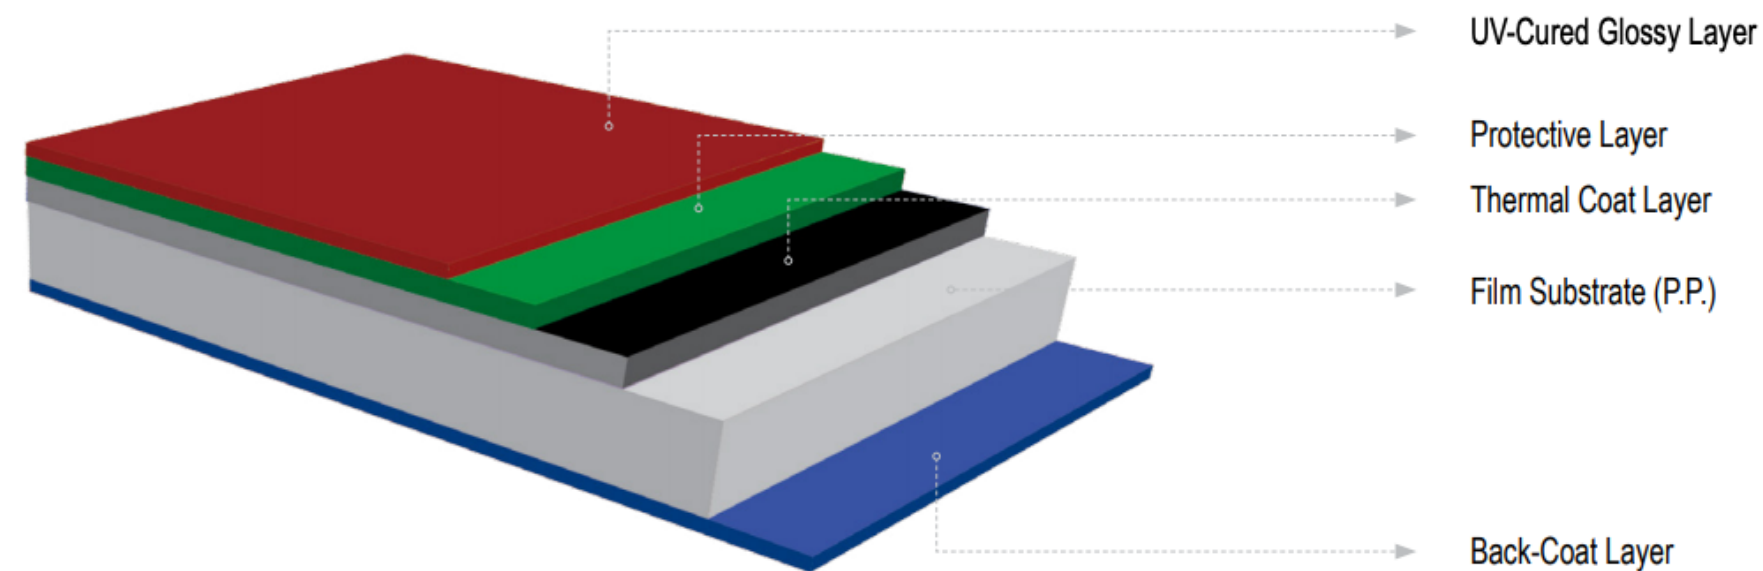

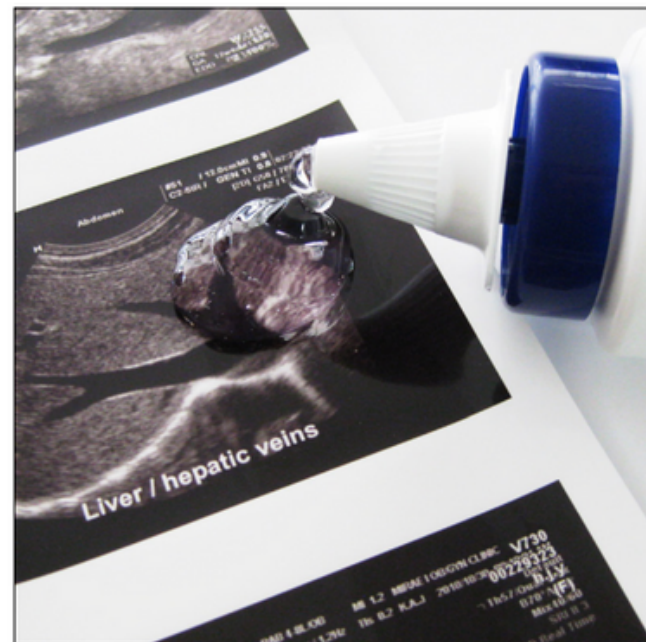

# Ultrasound Thermal Paper

Brand Name: Durico :: Brand Origin: Korea

World-Best Ultrasound Paper, Fitting Perfectly to World-Renowned Thermal Printers, Sony & Mitsubishi

## Features:

- **Highly Protective UV-Cured Top Layer**
- **Long-Lasting Image Durability for High Storage Stability**
  - High Humidity and Heat Resistance for Long Storage
  - Strong Resistance to Water, Finger Prints, and Ultrasound Gel Drops

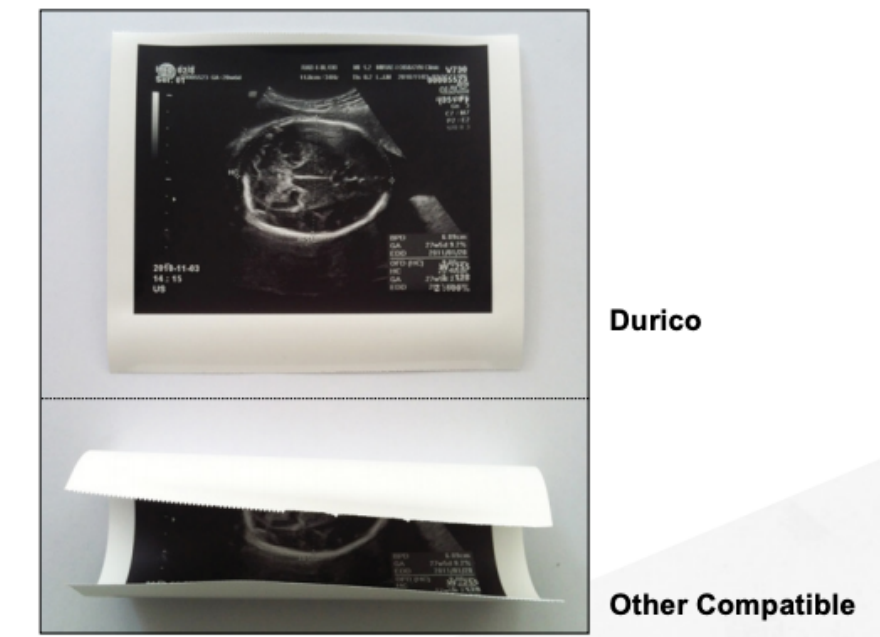

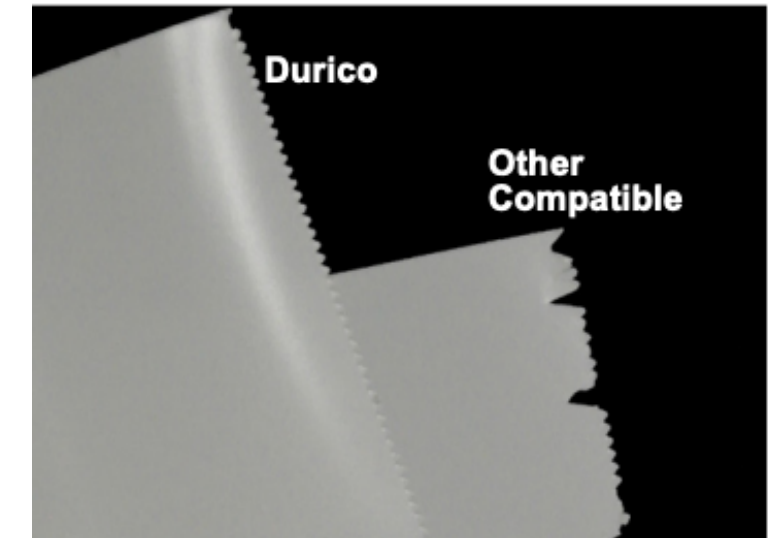

| Humidity resistance |                  | Heat resistance  |                  |

Brand Name: Sanctuary :: Brand Origin: Malaysia

**1** Dental Dam

**2** Dental Dam Clamps with organizer

**3** Dental Dam punches

**4** Dental Dam forceps

**5** Dental Dam kit

**6** Dental Dam frames

# Latex Dental Dam

## Sanctuary Powder-free Latex Green and Blue Dental Dam

### The Significance of Being Powder-free and Low Protein:

Plant proteins present in natural rubber may cause irritation and allergy to some people which are reduced by reducing the protein levels during production, thus making such products safer and more accessible.

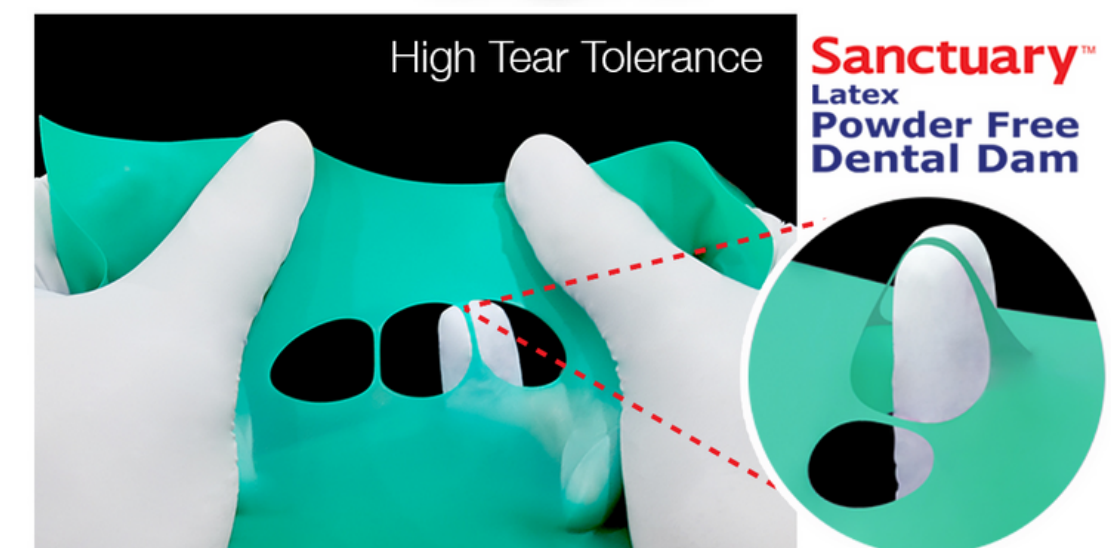

### Cutting-edge advantage:

Sanctuary Dental Dam is specially designed to be resilient, with a high tear tolerance to allow for the easy fixing of clamps.

### Tear Tolerance:

Designed to be especially resilient, Sanctuary Dental Dam guarantees an expansion of 10 times from any original hole punched making it easy, fixing of clamps.

### Available in Peppermint and Unscented

# Latex Dental Dam

## Sanctuary Powder-free Latex Silk Blue Dental Dam

### The Significance of Being Powder-free and Low Protein:

Developed for better vision comfort by reducing eye fatigue from the reflection of procedure lighting from long hours of concentration. The color provides comfort to the eyes and helps to maintain better vision during procedure.

### Stretchability

The Sanctuary Latex Dental Dam is made to achieve a very high stretchability consistent with a good tear tolerance

### Available in Peppermint and Unscented

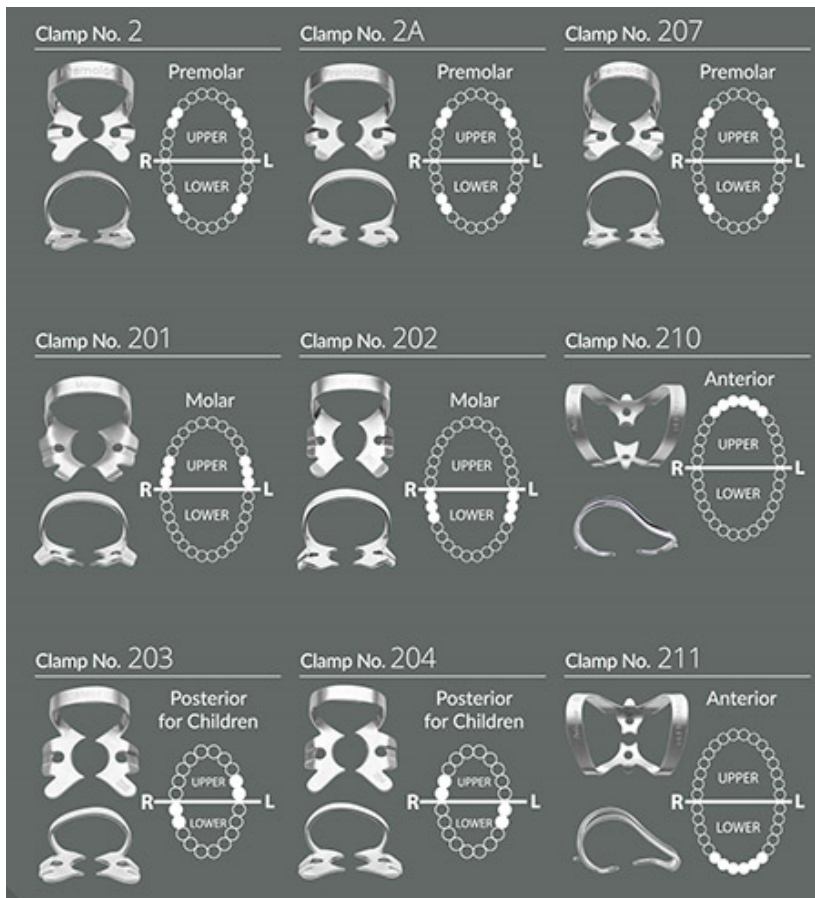

# Dental Dam Accessories

## Sanctuary Dental Dam Clamps

- Stronger and Lasting Retention
- Suitable for sterilization
- Resistant To Stress-Corrosion
- Safe For Autoclaving

## Sanctuary Dental Dam Punch

- Quality Punch Every Time
- Long-Lasting on Repetitive Application
- Safe For Autoclaving

# Dental Dam Accessories

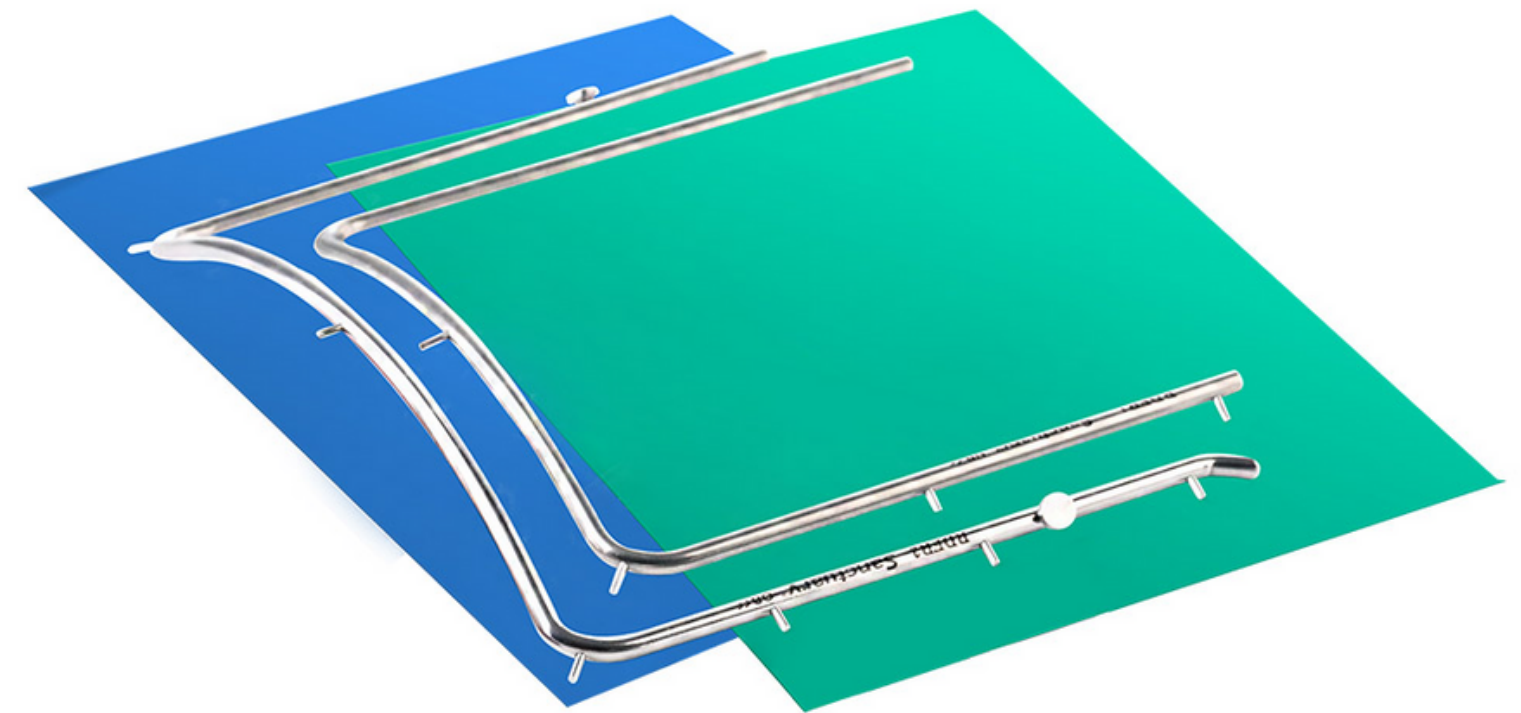

## Sanctuary Dental Dam Forceps

- Long Lasting on Repetitive Application
- Light Weight and Easy Gripping
- Safe For Autoclaving

## Sanctuary Dental Dam Frames

- Come in two sizes: 105 mm and 129mm.
- High-grade Stainless Steel
- Safe and beneficial

# Dental Dam Accessories

## Sanctuary Dental Dam Kit

### All in one dental dam kits:

Basic items needed for rubber dam procedures are conveniently packaged in a kit that includes essential clamps and accessories. Designed with a perfect balance between strength and flexibility. Handcrafted to precise specifications and exacting quality standards.

All in one dental dam kits including dental dam sheets, clamps, and accessories.

### Safe and beneficial:

Sanctuary All-in-one Dental Dam Kits are resistant to stress corrosion and very safe for autoclaving. Stronger and lasting retention, suitable for sterilization, long-lasting on the repetitive application as well as lightweight and easy gripping.

# Gyna Products

1

## PROCTOLUX

Proctolux is a range of single use, fully disposable and self-illuminating proctoscopes for use in diagnosis and treatment of the anal cavity & rectum.

2

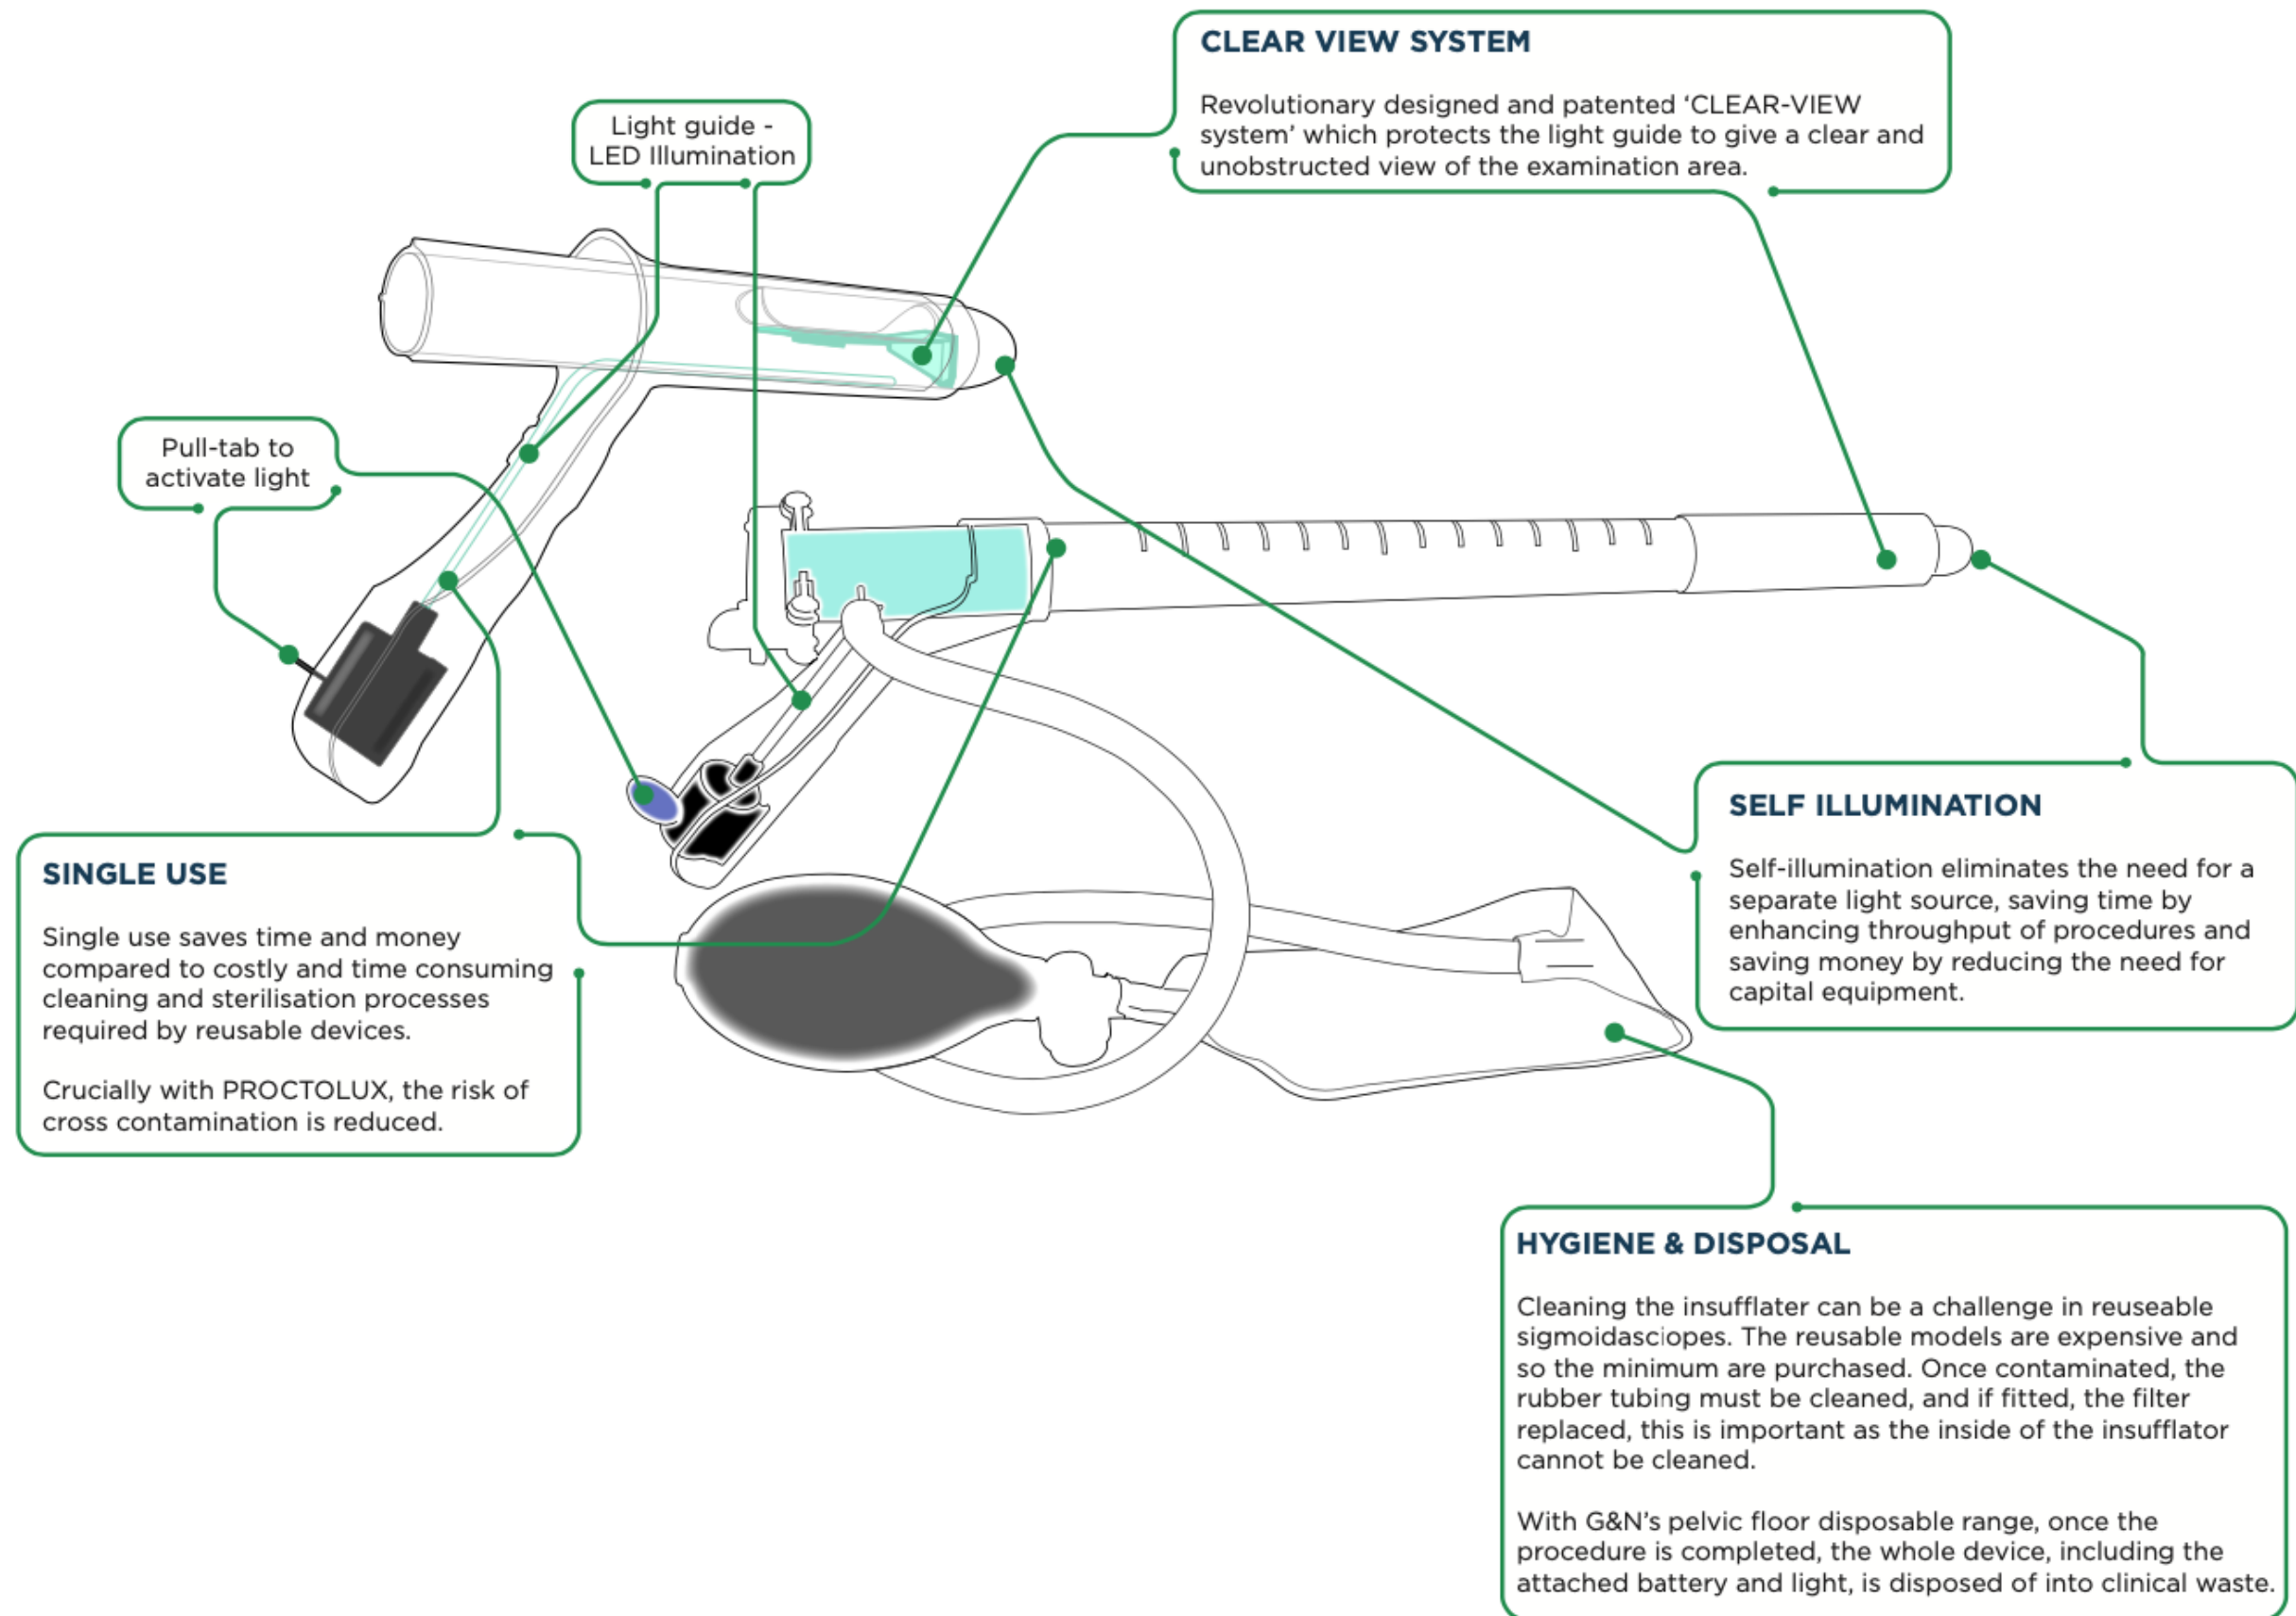

## SIGMOLUX

SIGMOLUX® is a self-contained, single use, fully disposable, cable-less and self-illuminating rigid sigmoidoscope system designed to optimize mobility during diagnosis and treatment.

**Brand Name: G&N – Griffiths and Nielsen :: Brand Origin: UK – England**

# Proctolux & Sigmolux Features:

# Proctolux & Sigmolux

## Applications:

### Proctolux:

- The **Proctolux Proctoscope** is used for the examination of the anal canal, a healthcare professional would undertake this procedure as a diagnostic tool to check for:
  - Haemorrhoids (Piles) , Abnormal Cells, Polyps, & Cancerous Cells.
- **Proctoscopies** enable the HCP to take biopsies of any abnormal cells.
- Enable the removal of Polyp’s and the litigation of haemorrhoid without having to undergo surgery.

### Sigmolux:

- The **Sigmolux Sigmoidoscope** is used for the examination of the sigmoid colon, a healthcare professional would undertake this procedure as a diagnostic tool to check for:
  - Ulcers, Abnormal Cells, Polyps , & Cancerous Cells.
- **Sigmoidoscopes** are generally used in the screening for colorectal cancer, enabling the HCP to take biopsies of the abnormal cells.
