Take orders the easy way with Phoenix

Uniwell Phoenix App

Because you can always rely on
Uniwell Technology...

Phoenix enables clients to take their
customers orders easily and accurately
away from the main EPOS stations.

Seamlessly integrated with Uniwell
Epos, this intuitive Android App sends
orders instantly to keep your business
running efficiently.

Turn tables over
quicker with
Phoenix. The perfect
combination of speed
and accuracy.

CONSOLIDATED REPORTING

Sales from your EPOS and Handheld devices will automatically
consolidate to save you time.
If you do need to break down your reporting though, we'll show you how.

INTEGRATED CARD PAYMENTS

Frustrated at having a device for ordering and a separate card machine?
We've created a seamless integration with Dojo so your ordering and
payments can exist on the same device.

A REPLICAS OF YOUR UNIWELL EPOS

If your team is used to the screen layout on your Epos, they'll find the
Phoenix app copies the appearance.
This will reduce training time for your team.

MIX AND MATCH

If you offer promotions, Phoenix will support you.
Uniwell has many in-built mix and match functions, Phoenix supports
these too.

Where Phoenix thrives...

Cafés

Pubs

Restaurants

Bars

Catering

Hotels

Now with integrated payments via the Dojo Pocket

ORDER AND PAY

Collect your customers order and receive their payment on ONE device with our Phoenix App and Dojo Pocket technology.

WI-FI AND SIM

The Dojo Pocket has network flexibility offering both a Wi-Fi and data SIM connection as standard.

MANAGEABLE AND CONVENIENT

A neat and tidy device that has been designed so it can literally fit in your pocket.

ABOUT UNIWELL

Uniwell is a long-established EPOS manufacturer with 40 years of cash register and point of sale innovation.

Based in Osaka, Japan, Uniwell has always looked to the future of the EPOS industry by considering the needs of its customers and the ongoing advancements in electronic and computer technology. They are always striving to improve their products to meet the practical needs of customers across the globe. Using Uniwell systems, you'll have all the functionality you need at your fingertips.

Qube

ABOUT QUBE

We're a close-knit team of EPOS experts, passionate about building EPOS systems which solve real problems whilst providing exceptional customer service to our clients across the UK.

At Qube, we picture a world where nobody is struggling with a sub-par or incorrectly set up EPOS system. Taking and managing payments will be a breeze, and business owners and managers will be free to spend their money and their time on other areas: growing and evolving their ventures, secure in the knowledge that their EPOS system is running exactly as expected.

Seamless Uniwell integration

Take your EPOS to your clients with mobile ordering on any Android device.

Easy Programming

No need to program separately with an instant program download from your Uniwell Epos.

Choice of Hardware

Deployable on any Android device including the Dojo Pocket for integrated payments as well as ordering.
