

CREMATION AUTHORIZATION AND DISPOSITION FORM

Dowden-Roberts Cremation Center – 28918 205th Avenue – Poteau, OK 74953 – 918-647-3000 – dowdenfuneralhome@hotmail.com

I/WE the undersigned, authorized in accordance with and subject to the rules and regulations of the State of Oklahoma, to cremate the remains of (Deceased) _____, who died on (Date of Death) _____ at (Address) _____ I/WE _____ (Relationship) _____

Hereby certify that I have the legal right to arrange for the cremation and disposition of the cremated remains of the above named deceased. I/WE hereby agree to be responsible for and pay all charges incurred with respect to this authorization. I/WE further understand that the above listed funeral home has no duty to determine next of kin relationship and I/WE represent my/ourselves as such. I/WE am/aware of no objection to this cremation by any spouse, child, sibling, parent, etc. I/WE authorize the death was not caused by an infectious, a contagious, communicable disease, or dangerous to the public health. In requesting cremation, I acknowledge that such is an irreversible act, and therefore, I/WE do hereby authorize cremation with full knowledge that the funeral director is acting solely upon my direction. In addition, I/WE, the undersigned assume all liability for mistaken identity or incorrect identification and do hereby agree to indemnify and hold the crematory, its agents, officers and employees, and Dowden-Roberts Cremation Center harmless from any and all claims, suits or causes of action, including a reasonable attorney's fee for the defense thereof, brought by any person, firm or corporation or the personal representative thereof. **NOTICE: Heart pacemakers, prosthesis, silicon and radioactive producing implant devices or other life sustaining devices may cause an explosion or damage in the cremation chamber. If the crematory does not receive notice, the person or persons authorizing cremation shall be held responsible for any damage resulting thereof. The funeral home, funeral director and crematory shall accept NO liability under these circumstances.** I/WE have identified the above named remains on and have authorized the above listed funeral home and/or its agents to deliver the remains to the crematory of choice for cremation. I further certify that I/WE have made such inquiry as is necessary to determine whether or not the remains of the deceased contains any of the above specified implant devices and certify that it does not. It is my understanding that the crematory will not accept the body for cremation if it contains these devices, and that said crematory will rely on this certification in accepting the remains for cremation. I understand that due to the nature of the cremation process any jewelry, personal material and valuables, to included dental gold, will be destroyed, and or rendered unrecoverable, unless they are removed at my specific direction by the necessary licensed person(s), noted below. Specific instructions noted below must give all necessary information, directions and descriptions. I further understand that I will indemnify and hold harmless the above listed funeral home, funeral director, crematory, their officers and/or employees for any liability, costs, expenses, or claims resulting from this certification. The funeral home/crematory will not be liable or responsible for any unclaimed cremains after thirty days, and they may be disposed of after 60 days in any lawful manner it deems appropriate. I/WE hereby certify that I/WE are the legal, closest, living next-of-kin of the deceased person listed above. If shipment is authorized, the undersigned authorizes the crematory to deliver the cremains via registered US Mail and agrees to pay the handling and mailing fees incurred therein. I/WE agree to assume all liability for any damages that may arise from any cause growing out of said delivery and to indemnify and hold harmless the crematory and the funeral director from any and all claims related to said shipment. **Policies, Procedures, & Requirements:** I/WE understand the processing and disposition of the remains of the deceased shall be performed in accordance with all governing laws and policies, procedures and requirements of the crematory and the designated Funeral Home. This document describes many of the policies and requirements of the crematory and is incorporated in the Cremation Authorization Form. We suggest you take the time to read this document carefully before executing the Cremation Authorization Form. Requirements Cremation will take place only after ALL the following conditions have been met. *All scheduled ceremonies or viewings have been completed. *Civil and medical authorities have issued all required permits. *All necessary authorizations have been obtained and no objections raised. Authorizations Unless previously authorized by the deceased in accordance with applicable state law, no cremation may take place without written authorization of the next of kin or the legal representative of the deceased. The next of kin is the person or persons described in the following order: 1. Surviving spouse; 2. Person serving as executor; 3. Surviving adult children; 4. Surviving parents; 5. Surviving siblings; 6. Surviving aunts/uncles; 7. Surviving first cousins. Caskets and Containers: The Crematory request all human remains be delivered to the crematory encased. All caskets and alternative containers are requested to meet the following standards. *Be resistant to leakage or spillage. *Be sufficient for handling with ease. *Be able to provide protection for the health and safety of the Funeral Home and Crematory personnel. *Be composed of materials suitable for cremation. *The crematory does not except fiberglass containers. All caskets that are comprised primarily of combustible materials also contain some exterior parts, such as decorative handles or rails, that are not combustible and that may cause damage to the cremation equipment. The crematory, at its sole discretion, reserves the right to remove these non-combustible materials prior to cremation and to discard them with similar materials from other cremations and other refuse in a non-recoverable manner. The Cremation Process All cremations are performed individually. Cremation is performed by placing the body, which must be in a leak resistant, rigid cremation container with a solid bottom or prepared hardwood casket, within the cremation chamber where the temperature is raised to approximately 1100 to 1800 degrees Fahrenheit, and the body will be totally and irreversible destroyed by prolonged exposure to intense heat and direct flame. I/WE authorize the crematory to open the cremation chamber during the cremation process and reposition the remains of the deceased in order to facilitate a complete and thorough cremation. Upon completion of this cycle, all substances are consumed or driven off, except bone fragments, other materials, metals, etc. are then raked from the chamber. It is the policy of the crematory to dispose of implanted metal devices (pins, plates, artificial joint, etc. in commercial landfill pursuant to permission to do so by opinion of the Department of Consumer Affairs. The cremated remains are then mechanically processed (pulverized). Once processed, the cremated remains are then encased in the specified urn. Unless a suitable urn is purchased or provided for the cremains, the crematory will place such cremains in a plastic bag within a cardboard box which is designed for short term use. In the event the capacity of the urn or other container is insufficient to accommodate all the remains of the deceased, the crematory if authorized to place them in two containers, and the Funeral Director and authorizing agent will be notified. The crematory makes a prudent effort to remove and recover all of the cremated remains from the crematory chamber, processing equipment and other tools or containers. Every effort is made to avoid inadvertent or incidental commingling of minute particles or cremated remains from the residue of previous cremations. It is impossible to remove or recover all cremated remains, as some dust, bone particles and other human residue will remain on or within the equipment. It is further impossible to guarantee or warrant that some bone particles or other residue could not possibly be co-mingled with those of previously cremated remains. I/WE authorize the crematory to dispose of any such residual particles in any lawful manner it deems appropriate. Final Disposition Cremation is not final disposition. The cremation process simply reduces the descent's body to approximately several pounds to approximately 125-200 cubic inches. It is recommended that the urn or container be a minimum size of 200 cubic inches. The authorizing agent shall be responsible for the final lawful disposition of the cremated remains. Cremated remains may be disposed of by placing them in a grave, crypt, or niche, or by scattering area as defined by law, or in any manner on private property of a consenting owner. Therefore, the crematory strongly suggests that arrangements for final disposition be made at the time that the cremation arrangements are made and that the Cremation Authorization Form is completed. If the option selected for final disposition includes scattering, then the cremated remains will be disposed of by the crematory in an unrecoverable manner. If scattering is performed in a common area, then the cremated remains may be commingled with particles of other cremated remains that have been previously scattered. **Limitation of Liability:** I/WE agree the above listed funeral home, funeral director, crematory, their officers and/or employees from any liability and fully indemnified if for any such reproduced copy of this form, which consists of this form for action that it takes based upon a facsimile transmission or other electronically reproduced copy of this form. I/WE further warrant that I/WE will arrange for the original version of this document, which may have been hand delivered, faxed, emailed, etc. to me that it bears my/our actual signature, E-signature, etc. to be delivered to the crematory without delay.

DISPOSITION OF CREMAINS: ☐ Release to: ☐ Ship To: ☐ Other: _____

☐ Specific Directions: _____

In view of the above, I/WE certify that I/WE have carefully and completely read this document and agree to the above listed wording, terms, instructions, and/or directives.

Signed: _____ **Relationship:** _____ **Date:** _____

Address: _____

Signature of licensed Funeral Director: _____ **License Number:** _____ **Date:** _____

By selecting the E-Signature ☐ I/WE agree that my/our electronic signature is the legal equivalent of my/our manual signature/initial.
