About the Executive Range

For narrow blocks our Executive Range delivers an opportunity to discover solutions to suit the land that doesn't provide many options.

With a large range of façade choices to go with these premium lean floor plans you won't go without. All of the homes include ensuites with three to four bedrooms.

The Executive Range of home designs is one of the most popular and offers a variety of floor plan to suit all while providing a very economical cost and delivering what you need from a home.

The Anglesea

The Anglesea is one of our more popular designs due to how the different areas compliment each other. 3 bedrooms on one side of the design and the master bedroom on the other provides privacy for you, while still offering everything you need.

*Based on standard Developer setback and Rescode setback of 4 - 5m front only and 3m rear setback. Plans, facades and specifications vary depending on zone and region.

The Balnaring

A different design with the master bedroom in the middle accommodated by a generously sized ensuite and walkin robe. The study can be utilised as a fifth bedroom of a sitting area. This design has a lot of options created from its large residence area.

*Based on standard Developer setback and Rescode setback of 4 - 5m front only and 3m rear setback. Plans, facades and specifications vary depending on zone and region.

The Bass

The Bass is a smaller version of the Balnaring with a few smart changes to the design. The front living area and movement of the outdoor living and eating areas creates the main point of difference.

*Based on standard Developer setback and Rescode setback of 4 - 5m front only and 3m rear setback. Plans, facades and specifications vary depending on zone and region.

The Boneo

The Boneo was IBN's first design and is still as popular as ever. Having 3 bedrooms allows this design to expand on all other areas and really come into its own along the back of the house with the family and eating area opening into the outdoor living.

*Based on standard Developer setback and Rescode setback of 4 - 5m front only and 3m rear setback. Plans, facades and specifications vary depending on zone and region.

The Boston

The Boston design is a very simple but popular design due to its functionality and the way it delivers simple features that compliment the feel and layout. Little features like the closed of wc in the ensuite, walk in pantry with a little more room and centralised living room allow this design to be open living and functional at the same time.

*Based on standard Developer setback and Rescode setback of 4 - 5m front only and 3m rear setback. Plans, facades and specifications vary depending on zone and region.
