

TRIBUTE PACKAGES

and selection guide

Effective February 1, 2026
Version 1.0

An Open Letter to Our Community,

I am Brian Leffler, a licensed funeral director and Certified Celebrant, dedicated to helping families create meaningful ceremonies that honor their loved ones' lives in a way that is as unique as each individual. It has always been our mission to provide you with professional services that cater to your needs and ensure your satisfaction.

In serving our community, we have come to realize a pressing need for affordable funeral and cremation services. We understand that these difficult times are made even more challenging by financial concerns, and we are committed to addressing this issue. We believe that everyone should have access to dignified and respectful final arrangements without the burden of excessive costs.

At all our funeral homes, we continue to offer our unwavering commitment to your satisfaction. If, for any reason, you are not completely satisfied with any of our professional services or facilities, you will not be charged for that particular service. Our aim is to take the uncertainty out of selecting a funeral home during your time of need.

For those considering cremation, we provide the ultimate peace of mind and flexibility. Your loved one remains in our care throughout the process, and we guarantee the return of 100% of the recoverable ashes. You can even choose to witness the entire process, and there is no requirement to purchase or rent a casket. We are fully transparent about our crematory, and you can explore it with a virtual tour on our website.

Pre-planning your cremation or funeral service is a thoughtful and considerate way to ensure your wishes are honored and your family has no doubts about your desires. We offer pre-planning options with or without prepayment, including affordable monthly payment plans. For individuals under hospice care, we have a 6-month price guaranteed pre-plan, and prepayment is not required. We also provide free in-home consultations to discuss your preferences.

If you are a veteran or the family of a veteran, we are dedicated to helping you secure the final expense benefits you are entitled to receive. These benefits include cemetery property at a national cemetery, perpetual care, grave opening and closing, an outer burial container, a bronze or granite marker, a flag to drape the Veteran's casket, a Presidential Certificate, and more. We handle all the paperwork, and all you need to bring is the DD-214.

Our core values revolve around peace of mind, economy, and personal choice. Pre-planning your arrangements not only ensures your affairs are in order but also prevents your family from bearing an unnecessary burden during a difficult time. It helps control costs and avoids emotional overspending. Expressing your wishes enables you to have the funeral or cremation service exactly as you envision it, reducing the potential for family disagreements.

We want to emphasize that a fine funeral or cremation service need not be costly. Our Simplicity funeral packages, which you can find on our website, are designed to offer quality service at affordable prices. We encourage you to shop around and compare our offerings.

Please know that we are here for you, ready to provide guidance, support, and the highest level of service during your time of need. If you have any questions or would like to discuss your options further, do not hesitate to reach out to us. Your comfort, peace of mind, and affordable choices are our top priorities.

Respectfully,

Brian D. Leffler

How can our Professional Staff Assist with Your Ceremony?

- We aspire to facilitate a funeral or memorial ceremony that reflects dignity and beauty.
- We receive and arrange or set up flowers that are sent to the funeral home, church or other facility.
- We coordinate officiants, musicians and present honorarium checks.
- We prepare a typed summary for the officiant, listing various helpful details that pertain to the deceased and family members, as well as the ceremony.
- We arrive early and attractively display the flowers in accordance with appropriate customs and host preferences that may apply. We bring stands for properly displaying vases, baskets and standing spray flowers.
- We transfer and display memory boards, framed photos and any mementos and provide easels and display stands as needed.
- We offer memory cards encouraging those who attend the service to write out a memory to be given to the family.
- We reserve seating for the family and assist your guests as they arrive. We are available to assist those who need a little extra help, show where coats and umbrellas can be stored and direct visitors to restrooms and other areas as necessary.
- We greet people as they enter and offer any printed goods such as keepsake cards or service folders.
- We can provide a stand for memorial registers for signatures as necessary.
- We are able to assist with the playing of pre-recorded music during the ceremony, if applicable and provide an outdoor sound system and lectern as needed.
- We can create and play a video tribute at the service.
- We focus on logistics and details so you can be with those you care about and engage in a service that truly facilitates the state of the healing process.

CREMATION *packages*

TRUSTWORTHY CREMATION WITH OUR PRIVATE CREMATORY GUARANTEED

10 Ways We Provide Peace Of Mind

We are proud to provide safe, secure and trustworthy cremation services-guaranteed. Here are ten reasons why you can feel confident using our cremation services yourself or for a loved one.

1: We personally perform all cremations.

Our staff is with your loved one during every phase of the cremation process. From the transfer into our care, to the precremation preparation, the actual cremation itself, the retrieval and processing of the cremated remains and returning the cremated remains to you, your loved one never leaves our care.

2: All cremations are performed individually.

All cremations are performed individually for our client families.

3: We return all of the recoverable cremated remains.

We return 100% of the recoverable cremated remains.

4: Our crematory is open to inspection any time.

Our equipment is modern, meticulously maintained and available for inspection at any time. We do suggest calling first, however, in case there is a service being performed.

5: Our staff is available 24 hours a day.

Our professional staff is available at any time -- day or night -- and will handle all the cremation paperwork. We will quickly obtain the signed death certificate and contact the county coroner to request the cremation authorization.

6: We offer 'nothing-to-hide' cremation services.

Our crematory staff meets our high standards of care and follows strict operating policies to ensure the process. For some faiths, it is customary to witness the placement of your loved one into the cremation chamber and to start the cremation unit. We welcome all families to inspect the crematory and/or witness the cremation process. We also have our cremation price list available so there are no surprise costs.

7: Embalming isn't required.

Except in certain cases, embalming is not required by law. If you do not want embalming, you have the right to choose an arrangement that does not require it, like direct cremation. If immediate cremation isn't possible, our state-of-the-art facility houses refrigeration units that can delay cremation for up to nine days.

8: We explain your options and respect your wishes.

Our experienced staff will explain all of the options available to you. There are a variety of services that can be combined to create the cremation that is right for your loved one.

9: Cremations are performed by a Cremation Certified Operator.

All of our licensed funeral directors and operators are Certified Crematory Operators.

10: We help provide peace of mind for you and your family.

Our focus is on serving the needs of our client families and so we do not cremate for any other outside funeral homes, only our family owned locations. We do not relinquish custody of your loved one to any outside party, jobber or middleman. Your loved one is safe in our care.

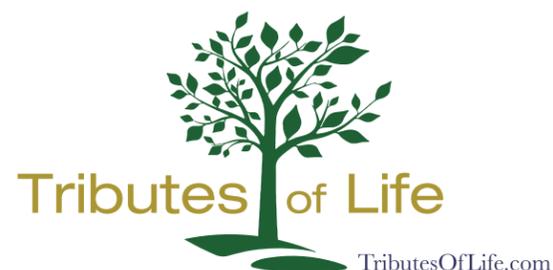

Our Staff is Available for Your Off-site Service

Many contemporary families are choosing to hold memorial services for their loved ones after a cremation has been performed or a burial has taken place. Sometimes this happens at parks, restaurants and private homes. That doesn't, however, mean you need to forgo the compassionate and professional expertise of a licensed funeral director and our caring staff.

We are able to have our staff present for the memorial service when you have a service following cremation or burial and wish to hold your service away from the funeral home. This will allow us to attend to the details so you can spend time with your family and friends.

Service Value Guaranteed

We see so much value in the professionalism of our staff that we want every family to experience it. In fact, we believe so highly in the importance of having a funeral director coordinate the service details, we are offering a written guarantee. If, after your off-site service, you do not feel our presence and services were important or valuable, we will refund those fees with no questions asked.

Whatever you choose, our family and caring staff are here to assist you, every step of the way.

Memory Glass®

Visit www.MemoryGlass.com for pricing.

What is Memory Glass®?

Memory Glass® provides a unique method of memorializing your family & friends by suspending cremated remains within sold glass sculptures and keepsake jewelry. At Memory Glass, the process of dealing with a loved one's cremated remains is a delicate procedure. To ensure that the greatest of care is taken with the cremated remains entrusted to us; Memory Glass® has employed safety and security measures that go above and beyond the lawful requirements. Your trust is of our utmost concern.

Memory Glass® also creates keepsakes from dirt, soil and sand for families who won't have access to cremated remains. Memory Glass® has recently discovered that dirt, sand and soil can be used in our keepsakes with the same results as cremated remains. A wonderful alternative for people who have buried their loved ones, or scattered their ashes. Samples can be collected from endless locations, from a burial plot to a favorite beach. The final product varies slightly due to different organic materials present in your local soil, but even with the most pure sand, something will still be visible in the piece and the memory will be preserved.

There is nothing different that needs to be done to order a Memory Glass when using dirt or soil just mention the location of the soil for tracking purposes in the future.

Because Memories are Forever.
