

The Dyes in UGANDA

July to September 2025

As we go over what has been happening the last months, we see how much God has taken care of us, even during difficult times. There has been business in ministry as well as the passing of a co-laborer. The last few weeks have consisted of a Youth Conference where we were able to see several young teens trust The Lord as their personal Saviour, make decisions for purity, and trust The Lord with their lives. Right after the Youth Conference, we also had a Faith Promise Conference, yes, even in Africa people are giving by faith to further

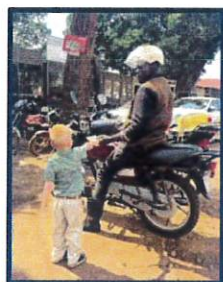

the work of our Lord. One of those instances, of giving by faith, is for an orphanage north of Kampala. We were able to see many of the teenagers from that orphanage attend the Youth Conference and stay with us during our Faith Promise Conference (FPC). After the FPC ended, one of the young men who was on staff and working as our main IT (he helped many places around the church) passed away suddenly. It has been hard on the church but there is such hope that has been seen here unlike any other! Such peace that passeth all understanding! We attended the funeral and burial and saw how they are different from what we are used to, although we were told this was a very calm one. Please be praying for the church as there is a gap that the young man left that needs to be filled by members stepping up to the plate, to serve Him.

Looking at the growth of our three children, not only have we seen them grow physically but also grow close to the church members here and be more comfortable to go around the church property without having to cling onto us. It has been a big help

that allows us to get more done without having to keep pulling the children around. The children do get spoiled with getting snacks and juice at church too so that has helped too, that and they would sometimes get candies from the pastors here.

Joel is now in charge of the outreach ministry at church and the soulwinning program at the college. It has been a fun challenge giving Bible challenges before going out soulwinning, leading on where to go, telling people who to partner with, as well as training future soulwinners. Last Saturday, Joel was able to lead two men to The Lord and one of them called that evening expressing how thankful he was that he had run into Joel on the street and had been able to hear about Jesus! He even came to church on Sunday.

PRAYER REQUESTS:

- ❖ Getting our dependent passes as soon as possible.
- ❖ Starting classes for Ugandan sign language in the next semester.
- ❖ Being able to make a good connection with the teens and the deaf in our church. ¹
