**DON'T JUST SEAL IT.
FLOOR SHIELD IT.**

FLOOR  SHIELD®

FAST RETURN TO SERVICE

Our chip flooring can be installed in as little as one day or overnight when required. Floor Shield contractors will work around your schedule to minimize business interruption.

DURABILITY

Compared to an epoxy garage floor coating, Floor Shield Polyaspartic chemistry offers superior wear and more flexibility. For Commercial Floors, Floor Shield is always applied with two topcoats for maximum wear and longevity.

SAFETY

Floor Shield can be customized for anti-slip levels. Between decorative granules, flakes, and anti-slip silica, the ideal surface will be provided for your business

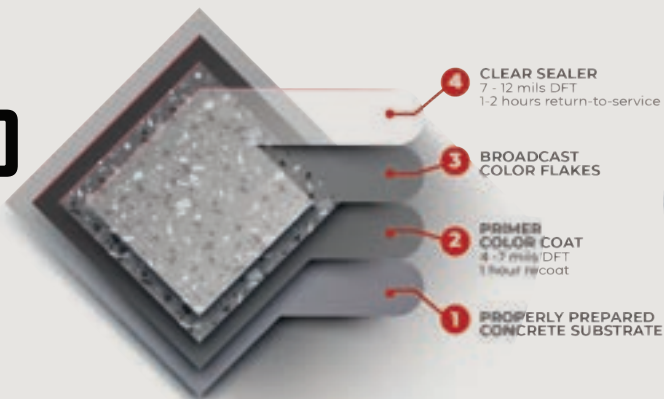

CLEANING

Floor Shield is easy to clean. The 100% Polyaspartic film repels stains from oil, food, and most liquids. Just squeegee or mop spills for easy clean-up.

BEAUTY

With unlimited flake combinations or quartz granules combos, most customers enjoy customizing the look for their business.

**MULTI
LAYERED**
Locked-in
Long-lasting
quality

Floor Shield 100% polyaspartic coatings lead the concrete coatings industry by **outperforming and **outlasting** other polyaspartics, epoxies, and polyurethanes.**

Our floors provide beauty and durability to any commercial property. Our three coat floor system is formulated to last and is easy to clean. Plus, our same-day floors mean minimal business interruption and downtime. Often, floors are applied overnight and ready for business as usual the next morning.
