We are pleased to present our fully redesigned digital platform—modern, intuitive, and built to meet the needs of the treasury community in Switzerland.

This website offers our members and partners easier access to specialist information, events, publications, and the network of treasury professionals. Thanks to optimized navigation and a modern technical architecture, the platform enables more effective communication and an improved user experience, both on desktop and mobile.

We extend our sincere thanks to zip.ch for the concept, design, and technical development of this project. Their expertise and support have made it possible to create a platform that combines innovation, functionality, and the SwissTreasurer identity.

This website marks an important milestone in SwissTreasurer's digital development and fully supports our mission to foster dialogue, knowledge sharing, and networking among treasury professionals in Switzerland.

We wish you an excellent experience exploring our platform.
