

Assistant to the District Superintendent Report

January-February 2026

Once again, I count it a privilege to bring you an accounting of my activities as Pastor Bob's assistant and as your representative to the District during these busy months.

Below is a brief summary of these events:

Church Visits

I visited with and preached at our Mt. Tabor (Fairfield French language), Tri-County and Living Hope churches.

Preparation for elections at the upcoming District Assembly

The process of researching and security electronic balloting software is now complete. We have retained the services of Election Buddy after a careful and thorough review. The plan now is to give the software a "test run" during annual elections at our Monroe church in April. Once again, much credit goes to Paul Lail, who has been diligent in this process, even while being in Florida!

Current efforts

It has been a joy to assist Pastor Bob whenever he may be absent. To visit with a minister in the hospital, to assist a pastor via phone or email, is joy to me! So much of this happens in the day-to-day of life, and it's a privilege to serve God's people this way.

Finally, as always, I am open to your questions, concerns, comments, and suggestions as to how I may serve you better! I really mean it!

Yours for the Kingdom,

Dave Crofford
