

Technogym Run

TECHNOGYM

**Technogym Run,
the training experience
that paves the way
to a healthier future**

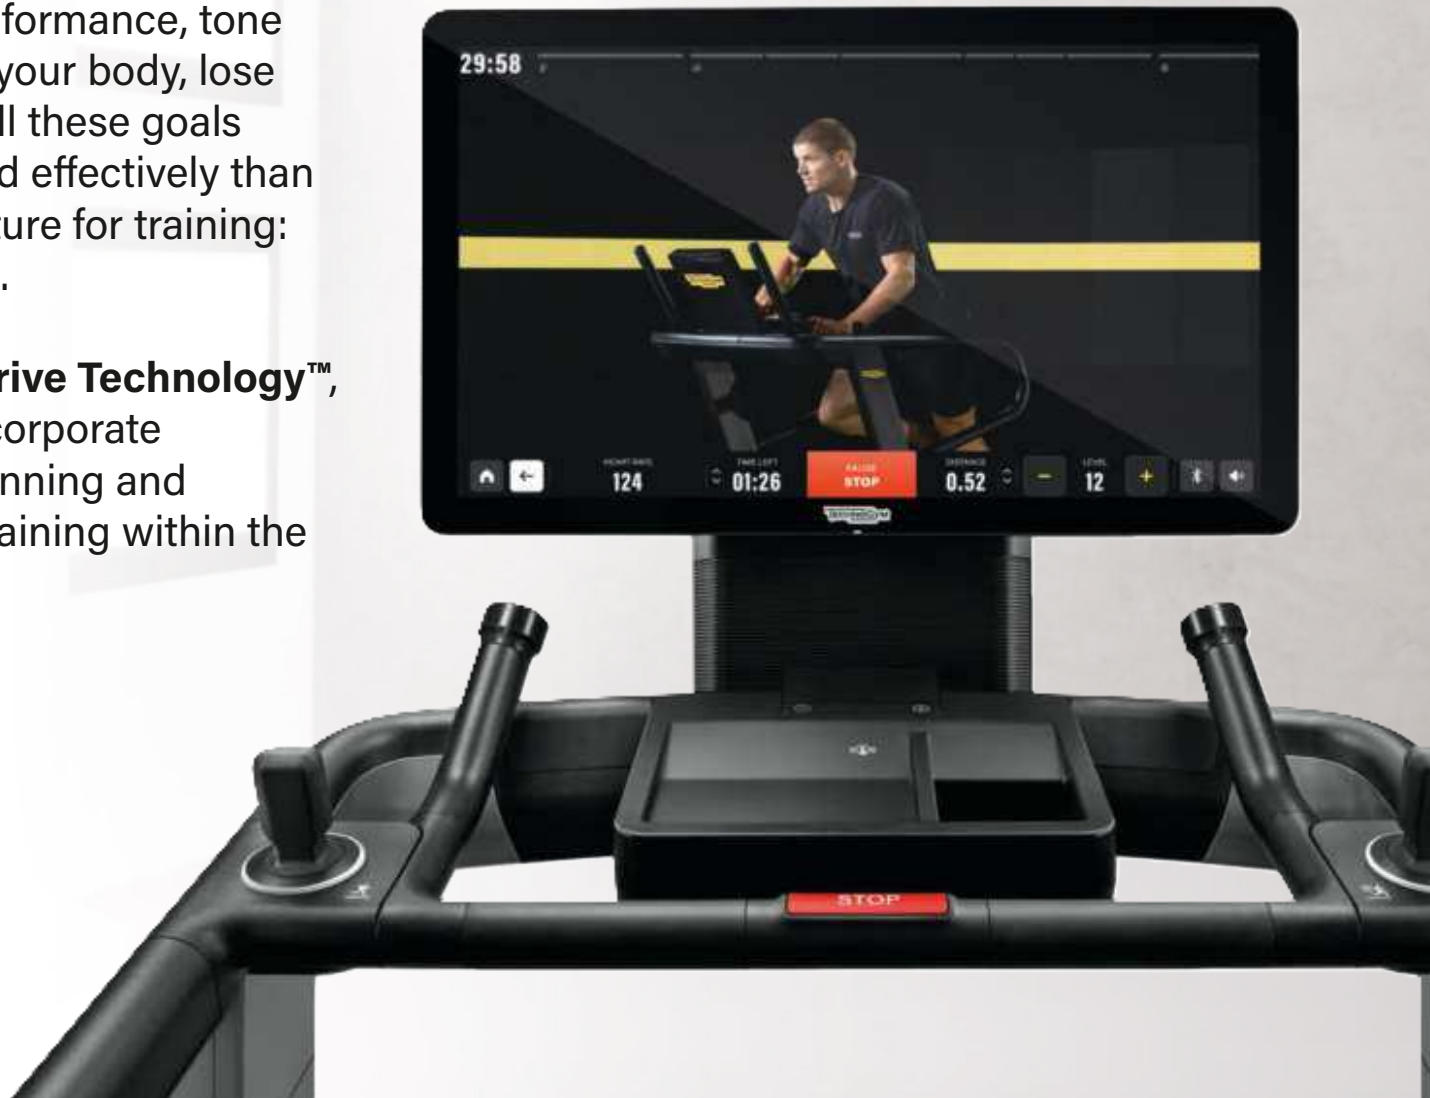

Cardio and power run the same path

Elevate your performance, tone and strengthen your body, lose weight. Reach all these goals more quickly and effectively than ever with the future for training: Technogym Run.

With the **Multidrive Technology™**, you can now incorporate automatically running and strength push training within the same session.

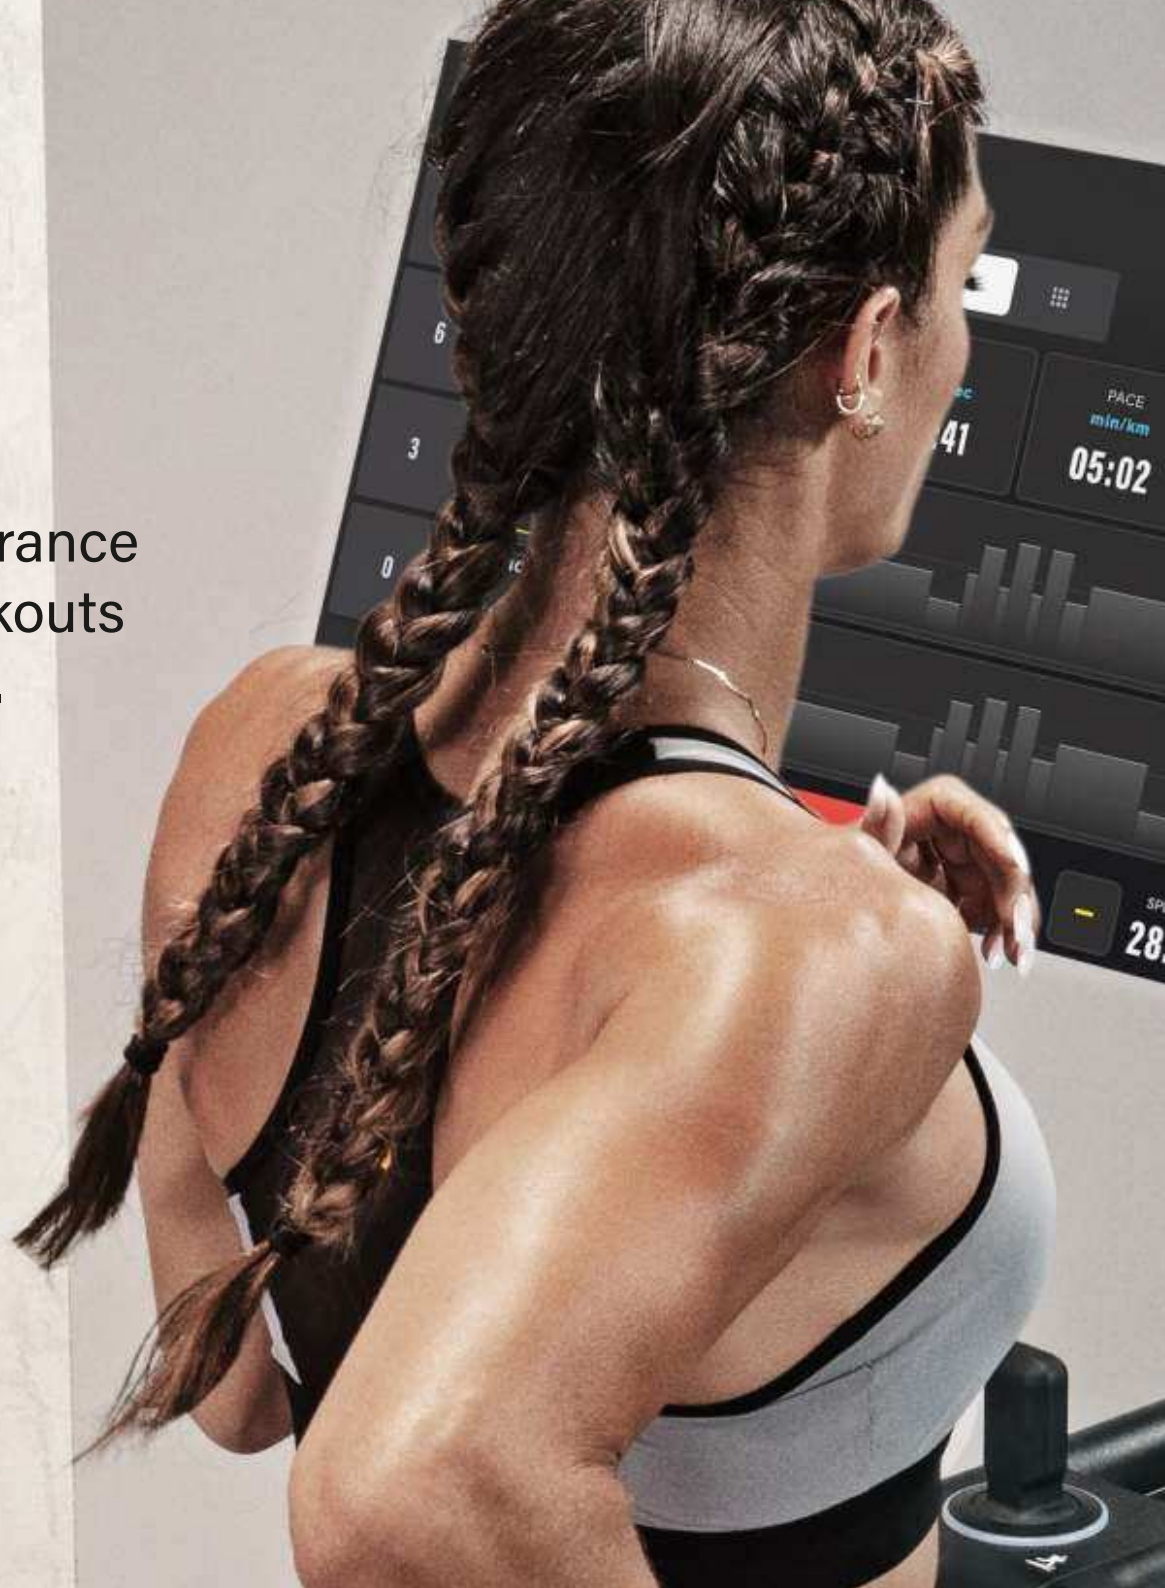

MULTIDRIVE TECHNOLOGY™
PATENTED

RUN

Build speed and endurance
with high-energy workouts
and a seamless stride.

PUSH

Meet your strength goals
with up to 55 kg of resistance.

LEAD THE WAY

Elevate the intensity of your workout with off-the-treadmill exercises right on the screen.

**ALTERNATE BENT
OVER TRICEPS
KICK BACK**

SEC

The ultimate running experience

Feel lighter and faster on a reactive surface that responds to your stride. The **Technogym Slat Belt** absorbs shock and ensures low-impact landings, recreating the feeling of the best running surfaces.

Confident after every step

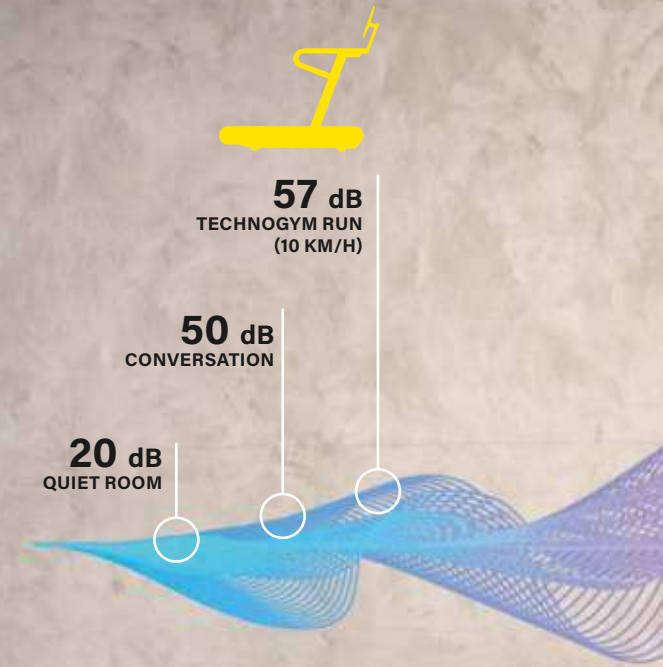

The raised edges on the sides keep you in the right running position so you can focus on the screen and your goals.

The quietest ever

Be amazed by the silence of Technogym Run. The high-quality materials and sound-absorbing technology reduce noise output to a minimum.

AUDIO SYSTEM

Get stronger, faster

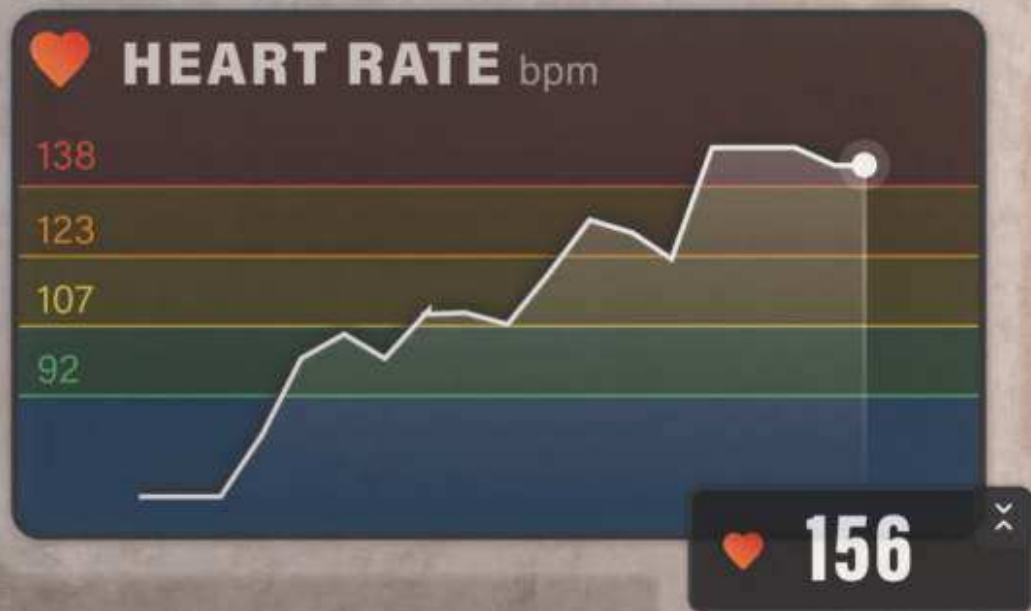

For the first time ever on a treadmill, work on all body areas involved in running – legs, abs and glutes. Using push mode, you can adjust the resistance to replicate a sled with a load of up to 55 kg, improving your muscle tone, efficiency and stability.

Elevate your running techniques

Running power, cadence, step length and that's not all. Technogym Run's built-in sensors analyze all the most advanced metrics in detail so you can maximize your running efficiency.
