

FRANKLIN INVESTIGATIONS INC.

Cyber Intelligence Services

Professional investigative support for locates, digital profiles, threat cases, civil matters, and complex investigations.

CONFIDENTIAL • LAWFUL • ACTIONABLE

Modern investigations often require more than public-record searches. Franklin Investigations combines licensed investigative experience with advanced cyber-intelligence resources to help identify leads, verify information, locate people, assess digital risk, and support complex cases.

Every request is reviewed for a legitimate and lawful purpose. Findings are delivered as investigative intelligence and may be paired with fieldwork, surveillance, interviews, process service, or other verification when needed.

SIMPLE, SECURE, AND CASE-FOCUSED

How the Service Works

1	Confidential intake Tell Franklin Investigations what happened, who is involved, what information is already known, and what result you are seeking.
2	Lawful-purpose review Identity, authority, and permissible-use information are verified before any search is accepted.
3	Authorization and payment You receive the selected service fee, scope, estimated turnaround, and any separately quoted fieldwork before the case is submitted.
4	Intelligence processing Specialized cyber-intelligence resources are used to identify relevant leads, associations, locations, timelines, and digital indicators.
5	Report and next steps Franklin Investigations reviews the returned findings and helps identify practical next steps, including corroboration or field investigation when appropriate.

WHAT YOU RECEIVE

- Professional case intake and lawful-purpose review
- Secure handling of identifying and case information
- A written intelligence report or real-time alert summary
- Franklin Investigations review of key findings
- Recommendations for corroboration or next investigative steps

IMPORTANT CLIENT TERMS

- Full payment and signed authorization are required before submission.
- Once specialized processing begins, fees are generally non-refundable.
- Turnaround estimates are not guarantees and may change with case complexity.
- Intelligence findings are leads and should be independently corroborated before legal or enforcement action.
- Franklin Investigations may decline any request that lacks a lawful purpose or creates a safety, privacy, or ethical concern.
