ATIONET REVOPAY

Introducing **ATIONET RevopAY**, the cutting-edge solution for fleet fuel payments. Enjoy seamless mobile fuel transactions without the need for costly terminals or unreliable pedestals. Powered by advanced cloud technology, **RevopAY** is paired with top-tier software that provides real-time reporting, dynamic pricing, hassle-free invoicing, and full site management—all at your fingertips.

► Benefits

- Eliminate the need for costly pedestals and avoid the expense of replacing components like keypads, displays, and card readers. Optimize your operations with an efficient and affordable solution. Fixed rates per station and per month.
- Move beyond physical identification methods like cards, stickers, and RFID. With everything managed through a mobile device, the process becomes seamless and hassle-free.
- Plug and play installation for simple and rapid deployment.
- Remote diagnostics, monitoring, updates, and configuration.
- Host APIs available for integration with third-party applications or systems.

► Functional specifications

- Full compatibility with Ationet's fleet and inventory module, with the option to include the loyalty module.
- 100% compliance with the Connexus MPPA protocol.
- Mobile app included, with customization options.
- Remote configuration of rules and restrictions by the fleet manager.
- Additional in-app prompts to capture key data (odometer, trip number, and engine hours).
