

PumpPass

A FASTER WAY TO FUEL

**AUTOMATIC SENSING
SECURE FUELING**

WHAT IS IT?

PumpPass is an **ultrasonic sensor** that recognizes your phone the moment you pull up to the pump. It **automatically loads** the correct pump in your app—just tap “Activate” and start fueling. No buttons, no searching, no hassle.

1 APP ID'S
PUMP #

2 ACTIVATE
PUMP

3 BEGIN
FUELING

Ultrasonic Sensing

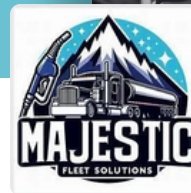

Speaker on/in fuel pump sends out a **continual signal** to prompt user's phone

No Data Entry

Driver does not have to enter pump number. Eliminates user error.

Speeds Up Lines

No card insertion, no bar code scanning, and no data entry. This **saves time** & increases profits.
