## Foreword from the Chair

Dear Friends and Supporters,

Recent months have marked an important milestone for Together With Kenya. In January, we proudly opened the TWK Education Campus, celebrating with parents, partners, community leaders, and our UK team. It was wonderful to welcome our founders, Roger and Helen, and to see the children shine on such a special day. Completing the campus in just nine months is a tremendous achievement.

We are also thrilled to have restored clean water access to one million people across southern Kenya, thanks to our dedicated Kenyan engineers.

Meanwhile, our new computer hub is equipping students and graduates with vital digital skills.

This season also brings change. We say a sincere thank you to Tracey, who steps down as Board Secretary and Sponsorship Lead after years of dedicated service.

Thank you for your continued support.

Warm regards,

**Margaret Thomson**

Vice-Chair and Educational Lead, Together With Kenya

## Opening Ceremony - TWK Education Campus

The grand opening was held at the end of January and was well attended by parents, TWK partners, local officials, community leaders and representatives from the UK Team . We even made it on to national Kenyan TV. link: <https://youtu.be/l4OIL8zuCO0?si=nLlcosRj4Ue7acl4?>). It was also wonderful to see Roger and Helen there, original founders of the charity.

The stars of the show were, of course, the children. Not only did they look very smart in their new uniforms, they entertained the guests with a scout demonstration, poetry readings and a dance performance. It's hard to believe that the first stone was laid only 9 months ago! Congratulations to the whole team who made this possible both in Kenya and the UK.

## Water Update

We are delighted to announce that a phenomenal milestone has been achieved. We have restored clean water to 1 million Kenyans, across southern Kenya, through our pump repair project. Our able team (all Kenyan volunteers) of 9 engineers, led and supported by Eric, from the UK, have worked very hard to for this achievement.

Jim (UK chair) and Suzanne ( UK treasurer) will be visiting some of the completed projects in May. They will be accompanied by Daniel (CEO Kenya) and Ambassador Lemarron (of the Kenyan Board)

## Sponsorship Change

We are sorry to say goodbye to Tracey, our Board Secretary and Sponsorship lead. As many of you know, she has worked tirelessly to support the charity for many years. Her contributions were particularly crucial to get the campus up and running in our tight timeframe. She will continue her Eripare work. A huge thank you from all of us for her hard work and commitment.

We are actively seeking a new sponsorship lead. In the meantime, any sponsorship queries should be addressed to:

## Computer Hub

We are gaining so many benefits from our partnership with Computer Aid! Not only do we have a fully kitted out computer suite, but they have completed training with Teachers Catherine, William and Lamwell who will now lead digital development in the school.

We held our first training course for our recent 'Secondary school graduates. This has led to a skills certificate which will help them in their next steps. With the support of Computer Aid, we have been able to extend this training to other Secondary School graduates in the local community.
