AITRE MASSI

Our seafront terrace is located right in front of the site, where, for almost sixty years, three large concrete blocks overlooked the shoreline of Riposto.

Those blocks were built between 1920 and 1925, in conjunction with the construction of the port; in those decades they became a symbol and a point of reference for the community of the district.

They were definitively dismantled around 1980, leaving an imprint in the local memory of the neighborhood. We keep this memory alive, with the intent and the hope of being able to be, with our flavors, a point of reference and added value to the territory.
