

Chaperone Responsibilities

You are an integral part of a successful and safe field trip to ScienceWorks! Please review the following policies to ensure your field trip with us is the best possible!

Chaperones Should:

- Stay within eye sight of your small group when exploring in the museum.
- Walk students to the restroom if needed.
- Accompany students in the gift shop, unless restricted by your teacher.
- Ensure students use exhibits in a safe manner. Please no climbing, running, or using an exhibit in an excessively violent manner.
- Have fun in the museum with students! Try exhibits and encourage curiosity.
- If you notice any issue with an exhibit, please inform Front Desk Staff as soon as possible.
- Support students during the workshop and have fun along side with them!
- Ask ScienceWorks staff if you have any questions during your visit. We are here to help!

Thank You!
