

Visiting ScienceWorks Hands-On Museum

ScienceWorks has a lot of fun activities.

Subterranean Science has rocks and live insects. It looks like a cave and is dark.

You can build things with Legos and Dominos in Da Vinci's Garage.

There is a paper airplane launcher.

The Tinkering Studio has a fun craft project.

Pacific Crest Cove has a water table, a ship, and stepping stones.

You might get wet! There are smocks and towels to help you stay dry.

The Main Gallery has lots of lights and sounds to explore.

**There are movies and presentations in
the Theater**

It is dark and calm in here

**Sometimes, the Museum is
LOUD**

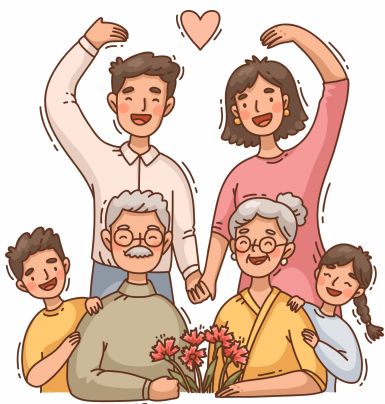

Sometimes the Museum is **CROWDED**.
There might be a line. You might have
to share.

Sometimes a fun exhibit is closed.

I can ask for help.

Family

Staff

They can help me:

Find a quiet space

Get headphones

Take a break

I am ready to play!

I am ready to have a good day!
