# How Meditab Can Help

Our team of Certified Professional Coders has served the industry for more than 20 years. Committed to data integrity, delivering accurate coding, and aiding you in the proper submission of claims, we even provide assistance with Healthcare Quality Reporting and so much more.

- ✓ Stay ICD-10-CM and CPT coding compliant
- ✓ Reduce AR backlogs
- ✓ Improve quality of care
- ✓ Improve provider documentation
- ✓ Reduce turnaround times

> " *The Meditab team is extremely helpful. They put together reports to help us better understand and guide us in the right direction, and they helped us better understand HEDIS, MIPS, and RAF.*

**Dr. Yvette Hargrove-Brown**
*Global Administrator of Clinical Medica General*

> " *Each member of the Meditab team is helpful and responsible. Every time I have a question or HEDIS request, they always respond and release records on time.*

**Anna Hrynchyshyn**
*Medical Record Clerk, AllMed Medical Center*

MEDITAB ™
INTELLIGENT MEDICAL SOFTWARE

## Give Your Practice the Advantage

Work with the Quality and Risk Adjustment Experts

## From HCC and RAF to Quality Care and Reporting

The team of coding and compliance specialists your practice needs.

## What Are HCC?

**Hierarchical Condition Categories**, or HCC, are linked to specific ICD-10 codes and help CMS assign Risk Adjustment Factors (RAF) to patients in order to predict costs.

## Why Is HCC Coding Important?

HCC directly affects the amount of money you receive from CMS, the largest payer in healthcare.

HCC allow you to account for the full range of patient complexity. However, if you don't code them properly, you won't receive the higher payouts your practice deserves.

## When It Comes to Making the Most of Your Coding, Meditab Has Everything You Need

Support Your Practice with Expert Services:

- ✔ **ICD 10 Coding**
- ✔ **HCC Coding and Feedback**
- ✔ **Medical Coding Orientations and Trainings**
- ✔ **Reporting Assistance**
- **And More!**

## Our Team Benefits Your Practice and Your Patients

Our system is built on working alongside your practice to understand your specific goals and help you reach them.

## Improve Your Quality of Care and Patient Experience

Thanks to a team of experts with in-depth and up-to-date training, you can grow your practice and ensure the quality of service you offer.
