IMS Pain Management

IMS™
INTELLIGENT MEDICAL SOFTWARE

The All-in-One EHR Platform
for All Your Practice Needs

Ready for an EHR that Actually Works with Your Practice?

Get a platform specifically built for the unique needs of a pain management office, optimizing chronic pain care with tools designed to help you work less, yet achieve more.

Pre-Built Templates - Document care faster with customizable pain management templates.

Integrated QME Templates - Efficiently evaluate patient benefits.

Pain Mapping Tools - Chart in seconds using visit note imaging.

Automated Billing System - Manage Workers' Comp and PI claims with ease.

Built-in E-Prescribing Tools - Streamline PDMP checks and EPCS security with an optimized prescription workflow.

Create Multiple Concurrent Cases - Quickly distinguish between case types.

Authorization Automation - Expedite your authorizations and referrals with intuitive processing.

Medical Request Management - Track, send, and receive requests all through a single screen.

Packed With Specialty-Specific Features, IMS Pain Management EHR Helps Make Your Day-to-Day Process Easier for You and Your Staff

"What I love most about IMS for our practice is how customizable it is and how Work Comp friendly it is."

- **Lucia Galindo**, **Director of Operations, RehabOne Medical Group**

"In my pain practice, at the end of the day, I do dictation in all the patients that I see. I dictate into my iPhone and that dictation is transcribed...into IMS directly. So basically, when I wake up the next day the complete note is done and I'm ready to go."

- **Amitabh U. Goswami**, **DO, MPH, California Pain Consultants**

From procedure support for interventional care to documentation for Chronic Care Management, **IMS is the complete pain management system.**
