

A Brighter Home. A Brighter Future.

At NSS Exteriors, we believe light can make a difference—both at home and around the world. Through our support of Feed My Starving Children, every skylight NSS installs will help fund 100 meals.

For every skylight installed, we'll donate the cost of 100 meals to Feed My Starving Children.

About Feed My Starving Children

Feed My Starving Children (FMSC) is a Christian nonprofit working to see every child and person healthy, nourished and whole—in body and in spirit. Since 1987, FMSC has packed and shipped more than 4 billion meals to over 100 countries through trusted local partners.

Why the meals matter

FMSC's MannaPack® meals are scientifically formulated to fight malnutrition and restore health. Food also creates a foundation for education, opportunity, and long-term change.

Starting August 1, 2026
