CLASS SCHEDULE
SPRING 2027

CLASSES: EASY LEARNING, IMMEDIATE BENEFITS

iCreative's Apple classes and multi-session courses help you feel confident and in control of your technology. Choose a single class for focused learning, or a step-by-step course to go deeper.

Single-subject classes include Your Amazing iPhone, Texting Tips and Tricks, The Grandparent Connection, Understanding iCloud, Stop The Scams and ApplePay, Apple Wallet.

Our two hour workshops allow you to pop in on a topic of your choosing to become familiar with the essential concepts. These workshops also give you an opportunity to bring a friend so that you can learn together!

COURSES: FROM BASICS TO CONFIDENCE

When you want more than a quick overview, our three- and six-class courses give you time to go deeper. Each session builds on the last, with hands-on practice, step-by-step handouts, and plenty of time for questions, so new skills stick instead of fading after a single class.

Three-class courses focus on one essential topic, such as your Digital Legacy, Mastering Passwords, Getting Organized and Mac Essentials.

Six-class courses, such as Photos Start to Finish, The Power of AI, iPhone Essentials and Travel and Technology take you from the basics all the way to real confidence.

IN PERSON TRAINING

Discover more of what your technology can do in a welcoming class at iCreative's training center. Our instructors explain each topic clearly, demonstrate useful skills, and give you time to practice and ask questions.

From staying connected with family to organizing photos and preparing for travel, our classes make learning practical and enjoyable.

For individual attention, we also offer private tutoring at iCreative or in the comfort of your home, with sessions tailored to your interests, questions, and experience.

ONLINE CLASSES

Enjoy the freedom to learn wherever life takes you with iCreative's online courses. Anywhere you have an internet connection, you can study on your own schedule and at your own pace.

Clear video lessons, step-by-step directions, short quizzes, extra practice materials, and additional resources help you build confidence as you learn.

Pause a lesson, revisit a demonstration, or practice a skill again whenever you wish—whether you're at home, traveling, or spending the season somewhere new.
