FEMALE HERD DISPERSAL

Welcome

After much reflection, we at BJF Limousins have made the difficult decision to offer our stud herd for sale. This choice hasn't come lightly, as our passion for the Limousin breed remains as strong as ever. However, as many of you know, we currently have a few too many irons in the fire, and we're determined not to let any of them go cold.

In 2006, we began our stud and strived to select outstanding bloodlines as our foundation. We have continued to develop our Limousins with high selection pressure on our females and sourcing quality sires to compliment each female. No animals will be sold prior to the auction, to ensure our absolute best are on offer. We are proud to have developed some outstanding bloodlines. Entering as much data into Breedplan as possible has also been a strong focus for us, as a reflection of this we have achieved a 4-star Breedplan rating. We have been dedicated to breeding high docility in our herd and doing our part to improve the overall temperament of the Limousin breed.

The final draft of BJF bulls will be offered in August 2026 on property at Yarraman. The BJF Limousin Invitation Bull Sale will continue with the current vendors in a similar format and be held in mid-August each year. The sale will continue to be held at the same on property venue at Yarraman. Although the sale will be rebranded with a new name, the same commitment to quality with a full suite of information including comprehensive EBV's and Genomics along with all bulls being fully vaccinated and guaranteed, will continue to be policy of the sale. The bull sale will aim to offer approximately 60 bulls each year.

Our commitment to excellence has led us to refocus our energy on two exciting ventures: Frohlies Meats, our butcher shop which continues to proudly feature Limousin beef, and our newest undertaking, Frohlies Grill. Both are growing rapidly and demand the kind of attention and dedication that we've always strived to give our cattle.

The Limousin breed has given us a great base to provide us with the quality and consistency of beef to help our butcher continue to grow for over 20 years now. Throughout our Limousin journey, Jodie and I have made lifelong friendships who shared our passion for this wonderful breed. While we are stepping back from stud breeding, we are not stepping away from Limousins. The breed will remain a cornerstone of our meat business, and we'll continue to champion its quality and performance through our retail and hospitality offerings.

We want to thank you all for your support, camaraderie, and shared passion over the years.

Bradley Frohloff

**On Property Sale - 32 Frohloffs Rd, Yarraman, QLD
11am (AEST) Saturday 7th February 2026**

**50 Cows & Calves

Sale Information

PRE-SALE INSPECTIONS

All lots will be available for inspection on the BJF Limousin property, 32 Frohloffs Rd, Yarraman, QLD from Friday 6th February or prior to sale by appointment.

LIVE & ONLINE WITH AUCTIONSPLUS

The sale of all live lots will be by open-cry auction on site starting at 11am Saturday 7th February and streamed on AuctionsPlus from 11am Friday 6th February.

Genetic lots will be sold by simultaneous auction starting at 11am Friday 6th February with the clock running at 3pm Saturday 7th February. See page 5 for instructions on how to register. Scan QR code below to view AuctionsPlus catalogue and to bid online.

PHONE BIDDING

There is full mobile coverage at the sale venue. If you intend on purchasing over the phone, please contact selling agents to reserve a line.

VIDEOS

Videos will be available on our website, www.bjflimousin.com.au, from 12th January 2026.

SUPPLEMENTARY SHEET

Any relevant updates will be available on the supplementary sheet online, in hardcopy on property, or via email on request.

TICKS

We are in a tick free area. If you wish to have your purchases blooded, we are happy to hold these cattle for their quarantine period.

TRANSPORT

Local carriers will be available to transport your purchases if required. We are happy to help coordinate long distance transport and can hold cattle if required to help with this process. For any questions regarding transport please contact Brad Frohloff on 0410 022 750.

GST

All lots are sold exclusive of GST. GST will be added to the sale price.

TERMS AND CONDITIONS

The sale is conducted under the ALPHA Livestock Auctions terms and conditions (published 2017).

BUYER'S INSTRUCTIONS

At the completion of the sale, all successful purchasers will be contacted by agents to provide full and clear buyer's instructions and delivery details.

TRANSFER OF REGISTRATION

Females and bulls will be transferred to new owners for registration with the Australian Limousin Breeders' Society on provision of Stud Name and Ident.

INSURANCE

Your new purchases are valuable to you just like any other piece of farm equipment. It is highly recommended that you insure them, especially whilst they are awaiting transport and during transport to your property. While all care and attention will be taken, the liability for sale animals lies with the purchaser from the close of auction. A representative from West Farmers Insurance (WFI) will be on site sale day.

FOOD

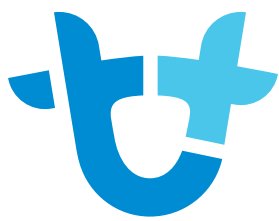

Food and drinks will be available Friday 6th and Saturday 7th February.

ACCOMMODATION

Accommodation is available 7mins to Yarraman, 25mins to Nanango, 40minutes to Kingaroy and 1.5hours to Toowoomba. If you would like assistance or recommendations for accommodation, please feel free to contact Jess Frohloff on 0409 014 224.

DISCLAIMER FOR ACCURACY OF CATALOGUE

All care has been taken to ensure all information in this catalogue is accurate during compilation, production and printing by all parties involved. All parties involved take no responsibility for any mistakes made during the compilation, production and printing or further actions taken by any party resulting from any mistake.

MERIDEN POLL HAPPY LADY H83 (P A U)

DONNA VALLEY POLL ALURING LADY (MGWFA603) (P A U)

A special cow from a special cow family. The Pretty Lady cow family was the dominant family at Donna Valley Limousins more than 20 years ago. BJF Chunk Pretty Lady's grand dam, Donna Alluring Lady, is the dam of Meridan Poll Heavy Duty who is one of the highest selling semen sires the Limousin breed in Australia has produced. Sells with a bull calf at foot, born 28/11/2025, by TDL Total Rush T41.

GREENWOOD CANADIAN IMPACT (IMCPL706) (PP A AC)

BJF L325 (B U)

BJF Barry Jane Marie V22 is a prime example of the power and performance that our homebred sire BJF Gryphon Barry is throwing into his progeny. We intentionally bred some brahman content to clean up the hair coat and add some performance for our northern clients. If you are serious about breeding bulls for the north, this heifer can't be missed.

GREENWOOD CANADIAN IMPACT (IMCPL706) (PP A AC)

BJF IMPACT JAZZLE N316 (P R U)

BONIAN JAZZLE DAZZLE (TYPPJ327) (P A U)

A moderate framed cow who packs some punch into her calves. Unfortunately we lost her dam, who was a special cow, at a young age. BJF Thaiday Jazzle Q443 produced BJF Gryphon Kane who has fantastic figures and is a very solid son of Balamore Gryphon, he has semen lots available later in the sale. AI'd 31/05/2025 to BJF Gryphon Barry, then paddocked with O'Sullivan's Radium R27 and TDL Total Rush T41.

We are extremely happy with the calves born so far by Rush. We are impressed with his dam at TDL Limousins and his pedigree which goes back to the extremely successful Rose Hill Gabrielle bloodline. He is the top 2% of the breed for 200 day growth, top 4% for scrotal size and top 10% for rump fat. Combine this with Anchor B Goldrush on the top side of his pedigree, Rush is a very reliable sire option.

10x BJJ GRYPHON BARRY Semen Straws

Ident: BJFPS23**Hetero Polled****Black****DOB: 16/09/2021**

BALAMORE ENDEAVOR 701E (IMCPBLM701E) (PP BB AA)

Barry is a powerfully built sire, with a massive hindquarter, but still maintains the softness we require to finish animals at a young age. He was selected to add thickness to our calves and has certainly done that. He is not homo polled but all of his calves born so far at BJJ have been polled or homo polled.

Technical Information

EXPLANATION OF ESTIMATED BREEDING VALUES

An Estimated Breeding Value (EBV) is an estimate of the genetic merit of that animal for each trait measured. EBVs are provided for the following traits:

Gestation Length: ranks sires for the time between conception and the birth of a calf. Shorter gestation is indicated by negative EBVs and longer by positive EBVs.

Birth Weight: indicates the genetic potential for birth weight. Positive EBVs indicate higher birth weights and negative EBVs indicate lower birth weights of progeny.

200, 400 & 600 Day Weight: gives an estimation of the animal's genetic potential for growth.

Mature Cow Weight: estimates differences between animals in live weights of cows at 5 years of age.

Milk: a key component of fast growth to weaning is the dam's maternal performance. A bull with a high milk EBV should produce daughters which milk well.

Scrotal Size: indicates whether the bull will produce sons with above average or below average scrotal sizes.

Carcase Weight: ranks animals for carcase weight.

Eye Muscle Area: ranks animals for eye muscle area measured at the 12th rib on a 300kg carcase.

Rib Fat: ranks animals for rib fat depth at the 12th rib on a 300kg carcase.

Rump Fat: ranks animals for fat depth at the p8 site on the rump on a 300kg carcase.

Retail Beef Yield: ranks animals for the boned out retail beef yield of a 300kg carcase.

Intramuscular Fat: ranks animals for the percentage of intramuscular fat at the 12th rib of a 300kg carcase.

Docility: is expressed as the increase or decrease in the percentage of progeny that will be scored as docile (score 1 or 2). Positive EBVs indicate a higher proportion of progeny that will be scored as docile and negative EBVs indicate a lower percentage of progeny being scored as docile.

COMPARING EBVS

The EBVs for Limousins cannot be compared with EBVs for animals of other breeds. They should be compared with the current average EBV for the Limousin breed shown below.

Breed Avg 2023															
	GL	BWT	200WT	400WT	600WT	MCW	MLK	SS	CWT	EMA	RIB	RUMP	RBV	IMF	DOC
EBV	-2.9	+1.5	+22	+38	+53	+53	+8	+1.2	+34	+2.1	+0.0	+0.0	+0.8	+0.1	+45

ACCURACIES

Accuracies are presented with each EBV and give an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal and its relatives.

DISCLAIMER

The EBVs contained within this sale catalogue were compiled by the Agricultural Business Research Institute (ABRI) from the data supplied by breeders. Neither the Australian Limousin Breeders' Society or ABRI oversee or audit the collection of this data.

EXPLANATION OF THE SUFFIXES TO ANIMAL NAMES IN THIS CATALOGUE

HORN STATUS

PP - homozygous polled - DNA test confirmed homozygous polled, or animal is homozygous polled by pedigree as both parents are confirmed homozygous polled, or animal is confirmed homozygous polled by progeny analysis process.

P - polled - DNA test confirmed heterozygous polled, or animal is untested, information was provided by breeder.

Ps - polled with scurs - identified by details provided by breeder at time of registration, or DNA test confirmed heterozygous polled and breeder information indicates animal shows scurs.

H - horned - DNA test confirmed horned, or animal is untested, information was provided by breeder.

Technical Information

COAT COLOUR

BB - homozygous black - DNA test confirmed homozygous black, or animal is homozygous black by pedigree as both parents are confirmed homozygous black, or animal is confirmed homozygous black by progeny analysis process.

B - black - DNA test confirmed heterozygous black, or animal is untested, information provided by breeder.

R - red - identified by details provided by the breeder.

A - apricot - identified by details provided by the breeder.

O - other - identified by details provided by the breeder.

F94L GENE

AA - F94L 2 copies - DNA test confirmed animal carries 2 copies of the F94L gene, or animal carries 2 copies of the F94L gene as both parents carry 2 copies of the F94L gene.

AC - F94L 1 copy - DNA test confirmed animal carries 1 copy of the F94L gene.

CC - F94L 0 copies - DNA test confirmed animal carries no copies of the F94L gene.

U - F94L status unknown - animal is untested and parent status is unknown.

LIM-FLEX

LF - lim-flex - animal is identified as Lim-Flex by pedigree details in line with ALBS regulations.

WHAT IS HOMOZYGOUS?

Homozygous is the term where an animal has two copies of the particular gene (tested or pedigree) for a trait (colour, polled). An example is homozygous polled where all progeny will be polled from that particular animal or homozygous black where all progeny will be black.
