

PACIFIC SOFA

## PACIFIC SOFA

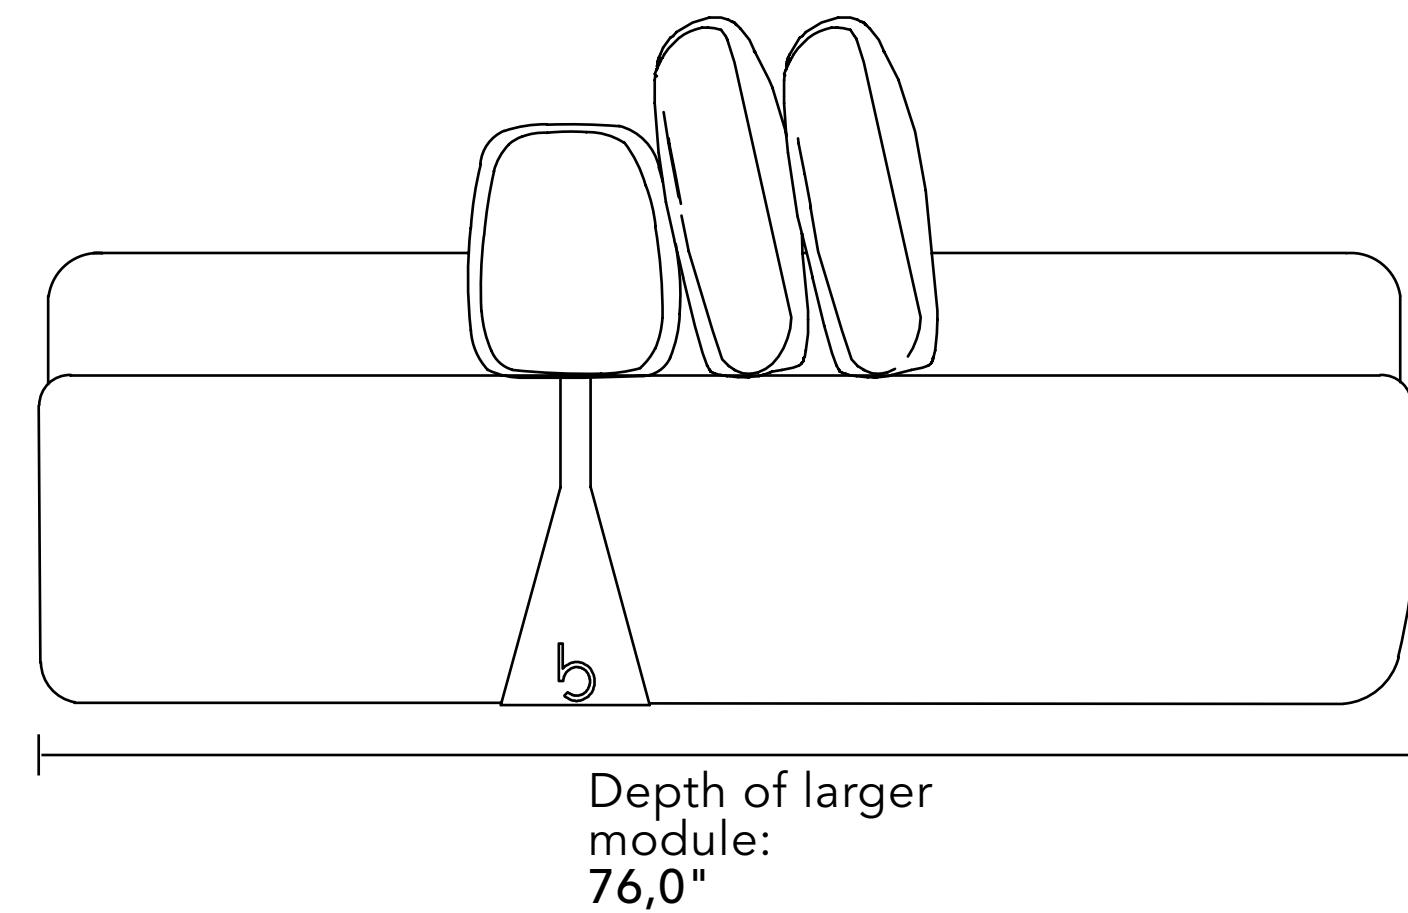

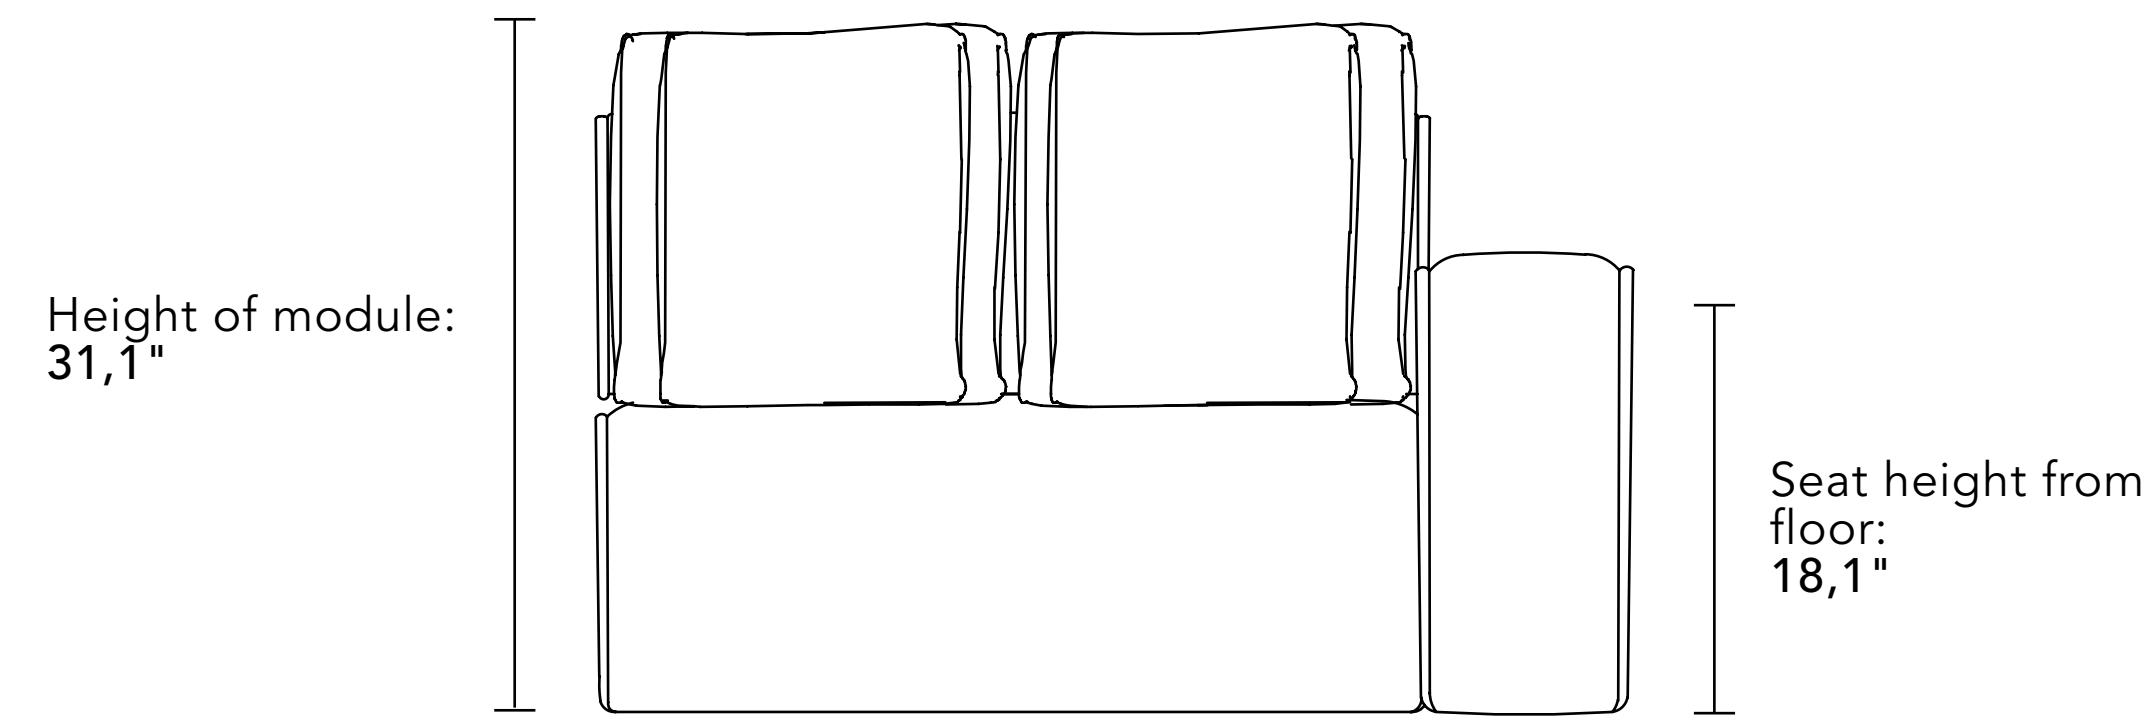

Pacific by Ricardo Barddal – The PACIFIC sofa was born from the “Double Side” concept, a strong trend in décor where a single sofa simultaneously serves two different environments. Yet always one step ahead in innovation, Bell’Arte developed a “Side-to-Side” backrest system, in which—through a touch-activated electric mechanism—the backrests move from one side to the other, allowing each user to precisely adjust the seat depth that best suits the moment, on either side of the sofa.
