

PACIFIC SOFA

PACIFIC SOFA

Pacific by Ricardo Barddal – The PACIFIC sofa was born from the “Double Side” concept, a strong trend in décor where a single sofa simultaneously serves two different environments. Yet always one step ahead in innovation, Bell’Arte developed a “Side-to-Side” backrest system, in which—through a touch-activated electric mechanism—the backrests move from one side to the other, allowing each user to precisely adjust the seat depth that best suits the moment, on either side of the sofa.

AVAILABLE MODULATIONS

As it is a handcrafted product, variations in the provided measurements may occur. Bell’Arte reserves the right to make modifications to the product without prior notice.

Module – 1 Arm

1 Seat of 43,3" + 1 Arm of 9,8" = 53,9"
2 cushions 21,7" × 19,7" + 2 cushions 19,7" × 19,7"

1 Seat of 47,2" + 1 Arm of 9,8" = 57,9"
2 cushions 21,7" × 19,7" + 2 cushions 19,7" × 19,7"

1 Seat of 51,2" + 1 Arm of 9,8" = 61,8"
2 cushions 21,7" × 19,7" + 2 cushions 19,7" × 19,7"
Depth: 63,0" or 76,0"

Module – Armless

1 Seat of 44,1" = 44,1"
2 cushions 21,7"×19,7" + 2 cushions 19,7"×19,7"

1 Seat of 48,0" = 48,0"
2 cushions 21,7"×19,7" + 2 cushions 19,7"×19,7"

1 Seat of 52,0" = 52,0"
2 cushions 21,7"×19,7" + 2 cushions 19,7"×19,7"
Depth: 63,0" or 76,0"

Module – Pouf

Width 19,7" x Depth 63,0"

Width 31,5" x Depth 63,0"

Width 19,7" x Depth 76,0"

Width 31,5" x Depth 76,0"

Module – Table

Height 15,7" x Width 15,4"
x Depth 18,9"

TECHNICAL INFORMATION

Structure
Made from certified plantation-grown Eucalyptus Grandis, kiln-dried under controlled humidity conditions, with plywood panels and solid wood feet.

Structure assembly
The wooden joints are reinforced with galvanized staples and a specialized adhesive to ensure a strong and durable frame.

Foam
ISO 9001-certified foams manufactured without CFCs.

Comfort system
Braided elastic webbing combined with coil springs and high-carbon pocket springs.

Seats
Fixed seat cushions featuring pocket springs and 28 kg/m³ density foam, wrapped in a layer of siliconized polyester fiber.

Backrests
Fixed back cushions made with 26 kg/m³ Hiper Flex foam and 20 kg/m³ density foam, wrapped in siliconized polyester fiber. Loose back cushions filled with siliconized polyester fiber.

Legs
Concealed solid wood feet.

Removable parts
The sofa is not designed to be disassembled.
