

SOFA AURORA

SOFA AURORA

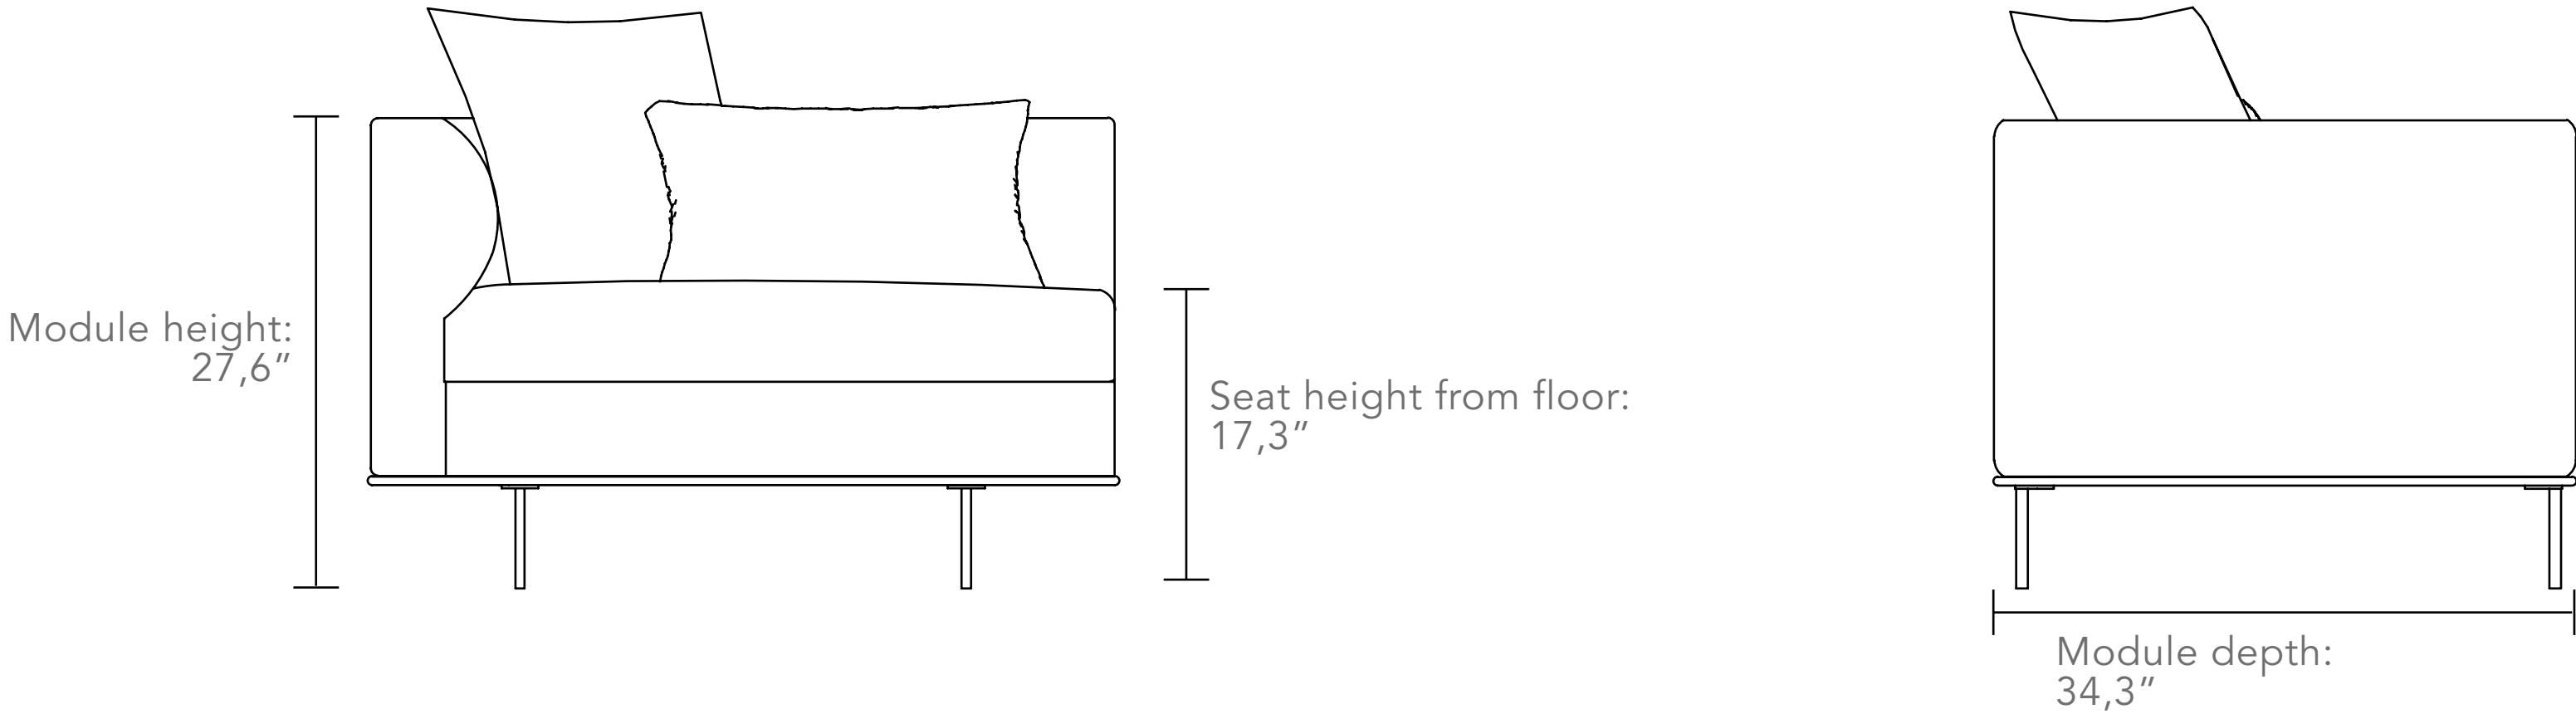

Fly through the morning skies, heralding the start of a new day. This was the function of Aurora, the goddess of the morning in Roman mythology responsible for inspiring the creation of this upholstery that combines a base with firm lines with seats and backs with organic features, reminiscent of the softness of the first rays of dawn. The model is made up of foam with a density that provides ideal comfort for a living room sofa, and carbon steel legs with a discreet design. Between the modules, the backless seat plays with the visual harmony of the piece, making the Aurora an authentic decorative element.
