

SCAN~LINK

DEWALT PORTABLE BATTERY ADAPTER SLDWBA

Overview

The **SCAN~LINK Portable Battery Adapter** is designed to allow a DeWalt portable battery to operate the Armour System™. It plugs directly into a SCAN~LINK Antenna Unit power cable to provide power for a portable system. The system may then be temporarily installed on equipment without the need for a hard-wired connection to the equipment's electrical system.

Note: While this adapter is configured for DeWalt batteries, the SCAN~LINK Armour System™ can also be powered using other portable battery platforms, including Milwaukee, and other compatible battery solutions. Additional adapter options can be available upon request.
