BIAPA COMMUNITY PARTNERS FREQUENTLY ASKED QUESTIONS

Find answers to common questions about BIAPA's year-round Community Partners Program, including partnership terms, benefits, and Annual Conference participation.

GETTING STARTED

What is the BIAPA Community Partners Program?

A year-round partnership with the Brain Injury Association of Pennsylvania (BIAPA) that offers visibility, engagement, and connections while supporting BIAPA's mission throughout Pennsylvania.

Can we join at any time?

Yes. A partnership runs for 12 months beginning on the effective date of the signed partnership agreement.

When do recognition and benefits begin?

Recognition and benefits begin on the effective date of the signed partnership agreement and continue for 12 months.

Can we renew after 12 months?

Yes. Community Partners may renew for another 12-month period. BIAPA will reach out several months before the partnership ends to discuss renewal opportunities.

What if we already have a BIAPA partnership agreement?

BIAPA will honor the benefits in your existing agreement through its end date. The new Community Partners Program will apply when you enter into a new or renewed agreement after the program is implemented. BIAPA will discuss available levels as your current agreement approaches renewal.

ANNUAL CONFERENCE PARTICIPATION

Is participation in the BIAPA Annual Conference required?

No. Annual Conference participation is optional.

Which partnership levels include conference registrations and booth placement?

Premier and Platinum each include two conference registrations and a booth location (Premier location for Premier; Priority location for Platinum). Gold and Silver each include one registration and a Priority booth location. These benefits are available if the organization chooses to participate, at no additional cost.

Do we need to purchase an exhibitor package to use included conference benefits?

No. If your partnership level includes a booth and registration(s), those benefits are already included when you choose to participate in the conference.

What if our partnership level does not include a booth or registration?

Bronze and Professional Partners may still participate in the Annual Conference through separately available registration, exhibitor, or sponsorship opportunities.

Can we purchase additional conference registrations or sponsorship opportunities?

Yes. Additional conference registrations, sponsorships, and other conference-specific opportunities may be purchased separately when available.

PARTNERSHIP BENEFITS

What distinguishes Premier from Platinum?

Premier is BIAPA's highest partnership level and offers greater prominence and frequency across several benefits. It also includes a Featured Community Partner Homepage Spotlight and an Educational or Community Awareness Collaboration Opportunity, which are not included at Platinum.

Can partnership benefits be customized?

No. Community Partner benefits are established by partnership level and are not customized or substituted.

What is the Premier Educational or Community Awareness Collaboration Opportunity?

Premier Partners receive one collaboration opportunity during their 12-month partnership. BIAPA and the partner coordinate the activity based on the partner's interests, BIAPA's mission and programming, and scheduling. The specific opportunity is subject to BIAPA's review and approval.

Ready to Explore a Partnership?
