We, therefore, request PAYMENT IN FULL AT THE TIME OF ARRANGEMENTS.

ON-SITE CREMATION SERVICES (Price Range: $4,250. - $27,150.)

While most funeral homes offer cremation services, we actually operate an on-site crematorium, enabling us to take full responsibility for the entire cremation process. To ensure safe and respectful handling of the deceased prior to the cremation, our crematory requires the use of an alternative cremation container, which will encase the remains for the identification process. This is just one more way we offer our families peace of mind, ensuring that all you entrust us to do is carried out properly.

If you want to arrange a direct cremation, you can use an alternative container. Alternative containers encase the body and can be made of materials like fiberboard or composition materials (with or without an outside covering). If desired, a plain cardboard box can be used at no additional charge for individuals less than 250lbs. Wood or veneer Cremation Caskets may also be selected, if desired.

$4,250. Direct Cremation w/ Container provided by Client Family
Does not include coroner's cremation authorization or any Cash Advances. Container must be rigid, combustible, enable safe handling by crematory staff and be compatible with crematory equipment.

This service is exclusively offered through our partnership with Leaf & Water Cremation in Bennington, Vermont. Additional charges may apply if restoration is necessary to facilitate identification (i.e. autopsied/donor cases). Extreme cases may exclude the opportunity for family identification, with or without embalming and other restoration.
