Payment Information:

Payment in full is required before the completion of Water Cremation to ensure the highest level of service. Payment options include: Credit or Debit Card, Personal Check, Money Order, Prepaid Funds, or Life Insurance Policy.

Note that processing fees are charged when paying online. For payment with a Life Insurance Policy, we use a service that charges a 4% fee to verify the policy and make funds available quickly (i.e. "verification and fast funding"). We charge you that 4% fee but we do not profit from it.

Casket and Alternative Container Disclosure

A casket or alternative container is not required for water cremation. If you select a ceremonial viewing or service prior to water cremation, certain containers may be required for safety or logistical reasons, which will be explained in advance.

Outer Burial Container Disclosure

Outer burial containers are not required for water cremation. They are only required for certain types of burial in a cemetery. We do not require the purchase of an outer burial container for any water cremation service.

Embalming Disclosure

Except in certain special cases, embalming is not required by law. Embalming may be necessary, however, if you select certain funeral arrangements, such as a viewing or public visitation. If embalming is required by law or by the arrangements you select, we will explain why in writing. As of this update, we do not offer embalming services but we are able to arrange for a third-party embalming service if requested.
