Child and Adolescent Behavioral Health's (C&A's) school-based consultation services include behavioral health screening and referral, crisis intervention, student social/emotional skill development and behavioral health and wellness education, community linkage and referrals, parent/guardian engagement/education, CARE team meetings and collaboration with school staff. When indicated, students may receive formal diagnostic and treatment services, provided at the school, by the school-based therapist.

- Students are referred to counseling by school staff and CARE teams to screen for mental health or substance issues
- Parents are asked to be engaged in the process
- C&A will assist with linking families to community resources as needed.
- C&A's clinical staff collaborates closely with school staff to enhance a supportive social/emotional school environment
