Web Report:

Annual Figures above show a 70% increase in web traffic from the 24-45 Financial Year to the 25-26 Financial Year.

Attached are the month by month stats which could be used by the PIPA Team to see if there is some web impact from their work.

This past year has been building resources on the website.

Next year we can look at a redesign — at no extra cost to us as we pay a monthly fee for this web support.

There is a limit to the Number of Pages — we have reached that now.

And Images — not sure of number but some culling can be down esp. re past Events.

There is unlimited file space, although now we have Google Drive Space that should not be an issue.

We are looking for volunteer/s for this website maintenance.

Thanks

Ro G

Web Admin.
