If the toilet is still clogged and plunging is not working or is overflowing, please shut off the water to the toilet(s) by turning the shut off valve that is on the left side of the toilet(s). If we arrive and there is no plunger, you will be charged the emergency fee for non-emergency calls and the hourly rate of our technician's time. Having a plunger is mandatory. If during the day we arrive and you do not own a plunger, you will be charged our time for the call.

This fee is due within five (5) days and will be posted to your account. You will be able to pay it by using your portal. **IMPORTANT:** Please note that you shall be responsible for the lock out fee once the call has been made and you spoke with our on-call maintenance staff. Lockouts happen, but we are responsible for the components of the apartment and the property. We strongly recommend you leave a key with a neighbor or friend so that you do not incur this charge. You are free to call a locksmith instead of the emergency maintenance number; however, you will pay multi-hundreds to have a locksmith assist you after hours.
