Murid-murid peringkat Asuhan dan Tajaka 1 telah diperkenalkan kepada seni ukiran melalui penerokaan pelbagai contoh perabot berukir. Guru turut menerangkan secara ringkas tentang proses ukiran, dan telah mengajak murid-murid meneliti corak dan bentuk yang terdapat pada perabot yang disediakan.

Sebagai aktiviti susulan, murid-murid mencuba teknik gosokan menggunakan rehal berukir. Mereka meletakkan kertas di atas permukaan rehal sebelum mewarna bahagian atas kertas menggunakan krayon untuk menghasilkan corak ukiran yang timbul. Melalui aktiviti ini, murid-murid dapat meneroka corak secara kreatif sambil mengenali seni ukiran sebagai sebahagian daripada warisan budaya Melayu.

Murid-murid Tajaka 2 telah mempelajari tentang salah satu seni kraf tradisional Melayu yang amat unik melalui aktiviti Seni Tikar Mengkuang.

Mereka mencuba teknik anyaman asas dengan menyatukan jalur-jalur kertas berwarna-warni secara berselang-seli. Aktiviti ini bukan sahaja membolehkan murid-murid menghasilkan corak seni yang menarik dan kemas, malah berkesan mengasah kemahiran koordinasi mata-tangan, fokus, serta motor halus mereka. Melalui pengalaman kreatif ini, murid-murid dapat menghayati keindahan kraf tangan tradisional Melayu sambil membina rasa bangga terhadap warisan budaya kita!

Murid-murid Tadika 1 begitu teruja dan bersemangat meneroka keunikan warisan budaya kita melalui aktiviti seni keris! Mereka berpeluang mengenali keris sebagai senjata tradisional yang kaya dengan nilai seni dan sejarah. Murid-murid juga menggunakan kreativiti masing-masing untuk menghias dan menghasilkan 'keris' mereka sendiri menggunakan kertas. Sambil mempamerkan hasil kerja masing-masing, mereka dengan penuh gaya dan keceriaan mencuba aksi-aksi pendekar yang tangkas, seolah-olah sedang mempelajari seni mempertahankan diri tradisional.

Melalui aktiviti interaktif ini, murid-murid bukan sahaja dapat mengasah kemahiran motor halus dan kreativiti mereka, malah dapat memupuk rasa penghargaan terhadap warisan budaya dari usia muda lagi!

Murid-murid Tadika 2 diberi peluang untuk mengenali warisan budaya Singapura melalui projek pembinaan model Kampung Buangkok. Untuk aktiviti ini, mereka bekerja secara berkumpulan supaya dapat membina semula suasana kampung dengan kreatif. Mereka menggunakan bahan-bahan kraf dan kitar semula untuk menghasilkan rumah tradisional beratap nipah, pokok-pokok, dan persekitaran semula jadi. Aktiviti ini bukan sahaja memupuk semangat kerja berpasukan dan daya kreativiti mereka, malah memberi peluang kepada murid-murid untuk mempelajari serta menghargai keindahan sejarah dan budaya perkampungan tradisional terakhir di Singapura.

# LITTLE BLOOM FOCUSED PROJECT: OUR FEELINGS, OUR WELL-BEING

## TODDLER

Our Toddlers explored different emotions and shared how they were feeling through an interactive feelings chart.

## NURSERY 1

Our N1 children used puppets to act out simple everyday situations that may bring about different emotions, such as losing a favourite toy, receiving a gift, saying goodbye to a parent, or a friend taking a toy. The children observed the puppets' facial expressions and actions, and identified how the puppet may be feeling. They were encouraged to imitate the emotions, share their own experiences, and suggest simple ways to help the puppet feel better.

## BLOOM FOCUSED PROJECT
## 'OUR FEELINGS, OUR WELL-BEING'

Our N2 children explored different emotions through meaningful and hands-on experiences. They learnt to recognise and name feelings such as happy, sad, angry and scared, and expressed how they felt through facial expressions, movements and discussions. Through these playful experiences, the children developed greater emotional awareness, self-expression, communication, and social skills.

Our K1 children learnt about 'Our Feelings, Our Well-being' through a variety of fun and meaningful activities. They expressed their feelings through dance, and created artworks inspired by different emotions. The children also learnt how their feelings can affect their well-being and discovered different ways to manage and express their emotions. Through these experiences, they developed a better understanding of the importance of being in control of their emotions and taking care of their well-being.

As part of our Focused Project, 'Our Feelings, Our Well-Being', our K2 children discovered how we can express our feelings in creative ways such as 'Drawing with Feelings'. The children listened to a variety of music that conveyed different emotions, such as happiness, anger, sadness and calmness. As they listened, they were encouraged to notice how the music made them feel and express those feelings through colours, shapes and drawings.

## PARENTING TIPS

### How do I nuture my child's mind?

Nurturing a child's imagination helps develop critical thinking, problem-solving skills, and emotional intelligence. Children naturally possess creative instincts, but they thrive when given the time, space, and freedom to explore.

### 3 WAYS TO NUTURE YOUR CHILD'S MIND

#### 1. PROVIDE OPEN-ENDED TOYS

Offer blocks, cardboard boxes, play dough, and dress-up clothes that have no fixed rules or instructions.

#### 2. ASK OPEN-ENDED QUESTIONS

Prompt deeper thinking during stories or play by asking questions like, "What do you think happens next?" or "How can we build a bridge over this river?"

#### 3. LIMIT PASSIVE SCREEN TIME

Reduce time spent watching videos or playing highly structured video games to create space for self-directed, creative play.
